## **Strategic Disengagement And World Peace Toward A Noninterventionist American Foreign Policy:**

*Strategic Disengagement and World Peace* Earl C. Ravenal, 1979      *Twilight of the Bombs* Richard Rhodes, 2011-09-06

The final volume in Richard Rhodes's prizewinning history of nuclear weapons offers the first comprehensive narrative of the challenges faced in the post Cold War age. The past twenty years have transformed our relationship with nuclear weapons drastically. With extraordinary depth of knowledge and understanding, Richard Rhodes makes clear how the five original nuclear powers—Russia, Great Britain, France, China, and especially the United States—have struggled with new realities. He reveals the real reasons George W. Bush chose to fight a second war in Iraq, assesses the emerging threat of nuclear terrorism, and offers advice on how our complicated relationships with North Korea and South Asia should evolve. Finally, he imagines what a post-nuclear world might look like as only he can.

**Liberty Means Freedom for All** Steven H. Propp, 2012-11

Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science. It's an election year and as a young progressive in California who has been raised by equally progressive parents, he is very much concerned with the political issues currently being discussed in the mass media. A chance encounter with a fellow graduate named Kelly Kelso, however, shakes up his settled view of the world. He is challenged to examine the rising number of alternatives to the two-party system presented by third-party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative. Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism. His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates, survivalists and militia members, anarchists, communists, and Democratic Socialists, as well as the Occupy Wall Street movement. He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition. But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved.
