Strategic Issues For Electronic Records Management

AN Whitehead

Strategic Issues For Electronic Records Management:

Strategic Issues for Electronic Records Management ACCIS Working Group on Electronic Records Management Issues and Standards, United Nations. Advisory Committee for the Co-ordination of Information Systems, 1992 Annual Review of Information Science and Technology Blaise Cronin, 2004 ARIST published annually since 1966 is a landmark publication within the information science community. It surveys the landscape of information science and technology providing an analytical, authoritative and accessible overview of recent trends and significant developments. The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives. While ARIST continues to cover key topics associated with classical information science e.g. bibliometrics, information retrieval, editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities.

Cases on Electronic Record Management in the ESARBICA Region Keakopa, Segomotso Masegonyana, Mosweu, Tshepho Lydia, 2020-02-28 The Eastern and Southern African Regional Branch of the International Council of Archives ESARBICA is dedicated to keeping and preserving records and documents so they may be accessible to the public. Constant research and re-examination of current record keeping methods such as the Electronic Document and Records Management System (EDRMS) is necessary to ensure the preservation and dissemination of information. Cases on Electronic Record Management in the ESARBICA Region is an essential reference source that shares case studies on the development and implementation of records management strategies including the procurement and implementation of EDRMS. Covering topics such as record management strategy development, records readiness and legal frameworks, this book is ideally designed for archivists, librarians, records specialists, knowledge managers, ICT professionals, policymakers, system analysts, project managers, legal officers, academicians, researchers and students. *ECIW2009-8th European Conference on Information Warfare and Security* Henrique Santos, 2009

Electronic Records in the Manuscript Repository Elizabeth H. Dow, 2009-04-13 *Electronic Records in the Manuscript Repository* defines the problems related to electronic records and digital documents, describes the steps the curator should take to manage those electronic records and digital documents and suggests ways to learn the specific skills and perspectives needed to do the job well. It provides an introduction to vocabulary, basic concepts and best practices to date by collecting and contextualizing data from several real world projects and it contains almost 30 pages of references to resources that the curator can consult for information on specific topics. Dow starts with a review of archival

concepts including a look at archival practices and then discusses the problems created by electronic materials in that context as well as the research in progress to tackle these problems Effective Approaches for Managing Electronic Records and Archives Bruce W. Dearstyne, 2006-05-24 This is a book of fresh insights perspectives strategies and approaches for managing electronic records and archives The authors draw on first hand experience to present practical solutions including recommendations for building and sustaining strong electronic records programs *Building an Electronic Records Archive at the National Archives and Records Administration* National Research Council, Computer Science and Telecommunications Board, Committee on Digital Archiving and the National Archives and Records Administration, 2005-07-28 The federal government generates and increasingly saves a large and growing fraction of its records in electronic form In 1998 the National Archives and Record Administration NARA launched its Electronic Archives ERA program to create a system to preserve and provide access to federal electronic records To assist in this project NARA asked the NRC to conduct a two phase study to provide advice as it develops the ERA program The first two reports phase one provided recommendations on design engineering and related issues facing the program This report phase two focuses on longer term more strategic issues including technology trends that will shape the ERA system archival processes of the ERA and future evolution of the system It also provides an assessment of technical and design issues associated with record integrity and authenticity **Strategic Information Technology Plan** United States.
