Synthese Du Tarot L Horoscope Par Les No:

Kabalistic astrology, or, Your fortune in your name, by Sepharia. Manual no.1 pseud SEPHARIAL,1895 **The**
Synthesis of Physics and Magic Harry Eilenstein,2021-04-18 First of all physics and magic are two completely different worldviews Physics looks at evolution along the time ray and finds quantitative correlations magic looks at simultaneities and finds qualitative correlations Physics considers quantity equalities and finds formulas by it magic considers quality equalities and finds analogies by it Physics considers the multiplicity of the world and finds the perfect determinacy of all outer events magic considers the unity of consciousness and finds therefore the freedom of all inner actions You cannot explain one worldview with the other but you can combine the two into a more comprehensive worldview If one compares the structures in both worldviews one finds a very broad correspondence Both the angles in physics and the angles in astrology have the same qualities Both the superstring and the zodiac are a twelve divided circle Both the superstring theory and the Kabbalistic Tree of Life have eleven areas with the same quality Both the solar circumference and the chakra system have the same structure From these and some other building blocks the detailed sketch of a unified magical physical world view can be put together **Meditations on the Tarot** James Jennings,1993 Now in a fully corrected edition one of the true spiritual classics of the twentieth century Published for the first time with an index and Cardinal Hans Urs von Balthasar s afterword this new English publication of Meditations on the Tarot is the landmark edition of one of the most important works of esoteric Christianity Written anonymously and published posthumously as was the author s wish the intention of this work is for the reader to find a relationship with the author in the spiritual dimensions of existence The author wanted not to be thought of as a personality who lived from 1900 to 1973 but as a friend who is communicating with us from beyond the boundaries of ordinary life Using the 22 major arcana of the tarot deck as a means to explore some of humanity s most penetrating spiritual questions Meditations on the Tarot has attracted an unprecedented range of praise from across the spiritual spectrum Publisher s description **Everyday Tarot** Gail Fairfield,2002-02-15 Everyday Tarot first published as Choice Centered Tarot is an accessible thorough introduction to the tarot Gail Fairfield focuses on the psychological meanings that can be found in the symbolism of the cards Rather than simply predicting a future in which we have no real choice her clear concise interpretations provide meaningful guidelines that will lead readers to powerful insights and greater self understanding She makes the tarot an easyto use tool for intuitive information gathering personal empowerment and self discovery all keys to making great choices about life s dilemmas Fairfield explains everything needed to become a competent card reader and offers invaluable tips on choosing a deck designing layouts and giving readings for individuals and groups
