Synthetic Detergents:

Synthetic Detergents John W. McCutcheon, 1950 **Synthetic Detergents** A. Davidsohn, Benjamin Max Milwidsky, 1972

Preparation of Biodegradable Synthetic Detergents from Low-temperature Lignite Tar John S. Berber, Robert V. Rahfuss, 1968 Skin Cleansing with Synthetic Detergents Otto Braun-Falco, Hans C. Korting, 2012-12-06

Over the last 35 years synthetic detergents have become increasingly important as skin cleansing agents. With the vast range of soaps and synthetic cleansers available nowadays, doctors and pharmacists are expected to advise on how to cleanse normal as well as diseased skins. Sound advice must include knowledge of the nature, composition and action of the available surfactants and cleanser preparations, the physiology and pathophysiology of the skin surface, the microbial ecology of the skin and the factors that control the skin flora. Much of this knowledge is the result of recent research. Health care professionals must be familiar not only with the benefits but also with the possible adverse effects of synthetic detergents on the human skin, roughness, water loss etc. and on the environment. This monograph draws upon the expertise of numerous scientists to present a comprehensive view of the subject. **Detergents for Home Laundering** Margaret Smith Furry, 1956 *NBS Special Publication*, 1971

An Index of U.S. Voluntary Engineering Standards William J. Slattery, 1971 **Handbook of Detergents, Part F** Uri Zoller, Paul Sosis, 2008-11-20. This sixth part of the multi-volume Handbook of Detergents focuses on the production of surfactants, builders and other key components of detergent formulations, including the various multi-dimensional aspects and implications on detergent formulations and applications domestically, institutionally in industry and agriculture with all the environmental consequences involved. Thus Part F constitutes a comprehensive treatise of the multi-dimensional issues relating to this industry, production technology, emphasizing the alignment of scientific knowledge and up-to-date technological and technical know-how with the relevant contemporary applied practice. An international effort and industry-academia collaboration, this volume features expert contributions focusing on the contemporary state of the art concerning the many facets of the production of detergents and surfactants. Thus the Handbook of Detergents Part F Production deals with the production of anionic, cationic, nonionic and amphoteric surfactants, key builders, bleaching and whitening agents, enzymes and other components of detergent formulations in different contexts, gauges and related concerns and discusses various technological procedures of production processes involving the components of surfactants and detergents. *Synthetics and Substitutes for Agricultural Products* United States. Department of Agriculture. Economic Research Service. Marketing Economics Division, 1969. Agricultural producers, processors and marketers are becoming increasingly concerned about the replacement of agricultural raw materials and products by synthetics. They are adjusting to this emerging market situation by altering production patterns, processing methods and marketing strategies. *Third World Petroleum*,
