Abhyankar,2020-09-08 The book focuses through multiple levels of international reality on the pervasive and widespread effect of the Syrian civil war on the unravelling of established norms both global or national which have determined international relations during the last seven decades It postulates that since 2011 the Syrian situation has catalysed the breakdown of the international system based on the United Nations and the Bretton Woods institutions The core international values fostered by that system now laid waste among others are sovereignty non interference sanctity of UN Security Council approval for waging war human rights protection of civilian populations and the right of people to choose their own governments leaders By making the UNSC powerless in providing humanitarian assistance or fostering
