Liberatore, 2012-12-06 Matthew J Liberatore Department of Management Villanova University Villanova PA 19085 1 BACKGROUND The weakening competitive position of many segments of u s manufacturing has been analyzed debated and discussed in corporate boardrooms academic journals and the popular literature One result has been a renewed commitment toward improving productivity and quality in the workplace The drive to reduce manufacturing related costs while meeting ever changing customer needs has led many firms to consider more automated and flexible manufacturing systems.
