throughout as well as special colour artwork this volume is a concise history of this fighter group and their success I think the success of the 354th as the leading group in the European theatre for aerial victories is due to several things First was the initial training of the squadrons before deployment to England Colonel Ken Martin nurtured the group from its infancy and all the excellence that later showed through could be placed at his doorstep Despite his youth he knew how to foster teamwork and demand perfection in flying There was nothing more important than getting the group off on the right foot

Second our pilots were taught to fly mutual support and practised it faithfully There were no hot pilots in the 354th only excellent pilots Third men like Glenn Eagleston gave advice and warnings about combat tactics and guarding one's tail This prepared our pilots for lurking dangers something the other groups may not have done Brigadier General James Howard Commanding Officer of the 354th Fighter Group *Aviation's Most Wanted™* Steven A. Ruffin, 2005-06-30 Ever since the caveman gazed longingly at the winged creatures above him mankind has been enamored with the idea of flight of just taking off and soaring away Steven A Ruffin celebrates that spirit that sense of wonder with *Aviation's Most Wanted The Top 10 Book of Winged Wonders Lucky Landings and Other Aerial Oddities* With dozens of top ten lists focusing on notable flights memorable planes famous and infamous aviators aircraft combat air travel even space travel and so much more Ruffin provides a treasure trove of fun facts and amazing anecdotes celebrating the world's love affair with flight plus the hurt that accompanies any deep love Will Rogers died in a plane crash near Point Barrow Alaska with aviation legend Wiley Post at the controls Rogers was writing an article at the time of the crash eerily the last word he typed was death Isoroku Yamamoto who masterminded the surprise attack on Pearl Harbor met his fate in similarly sneaky fashion U S forces intercepted and decoded information on Yamamoto's travel plans and Pearl Harbored his plane shooting it down into the island jungle of Bougainville The safest seat in a crash depends on if you crash on takeoff or on landing so flip a coin You'll read about the first and worst of flight aces and races and everything from crimes sex and controversy to planes so fast they can outrun the sun With *Aviation's Most Wanted* you'll get the history of flight from the early balloon adventures of the eighteenth century until the present laid out with trivia and tales to amuse and amaze **U.S. Marine Operations In Korea 1950-1953:**
