Tailfins Across Europe:

America's Century in Europe Mary Nolan, 2023-09-27 Transnationale Geschichte als Schlüssel zur nationalen Geschichte Amerikanisierung und Antiamerikanismus sind in Deutschland und Europa im 20. Jahrhundert allgegenwärtige sich wandelnde und umstrittene Phänomene gewesen. Sie haben die einzelnen Nationen und die transatlantischen Beziehungen tiefgreifend geprägt. Mary Nolan, Expertin für deutsche und transnationale Geschichte, untersucht, wie die Europäer von amerikanischen Wirtschafts-, Kultur- und Politikmodellen beeinflusst wurden und mit ihnen umgingen. Dabei entstanden hybride Gesellschaften und politische Systeme, die sich manchmal deutlich von den Vereinigten Staaten unterschieden. In jüngerer Zeit aber angesichts von Wirtschafts- und Migrationskrisen und rechtsradikalem Populismus, die dortigen Entwicklungen widerspiegeln. Wie die Aufsätze von Mary Nolan zeigen, waren die diplomatischen Beziehungen und die Visionen von der globalen Ordnung eine ständige Quelle transatlantischer Konflikte. Das Gleiche gilt für Fragen zu Frauen, Geschlecht und Sexualität. Die transatlantischen Beziehungen werden häufig auf sehr geschlechtsspezifische Weise erzählt. Nolan zeigt, dass die transnationale Geschichte neue Einblicke sowohl in die nationale Geschichte als auch in die internationalen Beziehungen bietet. Transnational history as a key to national history. Americanization and anti-Americanism have been pervasive, shifting, and contested phenomena in twentieth-century Germany and Europe. They have profoundly shaped individual nations and transatlantic relations. Mary Nolan, a scholar of German and transnational history, investigates how Europeans were influenced by and negotiated with American economic, cultural, and political models, creating hybrid societies and polities that sometimes looked markedly different from the United States. But more recently, with economic and migration crises and right-radical populism, mirror developments there. As Mary Nolan's essays show, diplomatic relations and visions of the global order have been a persistent source of transatlantic conflict. So too have been questions of women, gender, and sexuality. Transatlantic relations are frequently narrated in highly gendered ways. Nolan demonstrates that transnational history offers new insights into both national histories and international relations.

Transformations of Retailing in Europe after 1945 Lydia Langer, 2016-02-17 After World War II, structures, practices, and the culture of retailing in most West European countries went through a period of rapid change. The post-war economic boom, the emergence of a mass consumer society, and the adaptation of innovations which already had been implemented in the USA during the interwar period, revolutionized the world of getting and spending. But the implementation of self-service and the supermarket, the spread of the department store, and the mail order business were not only elements of a transatlantic catch-up process of Americanization of retailing. National patterns of the retail trade and specific cultures of consumption remained crucial. Long-term processes of change, starting in the 1920s or 1930s, also had an impact on the transformation of retailing in post-war Europe. This volume presents a series of case studies looking at transformations of retailing in several European countries, offering new insights into the structural preconditions of the emerging mass consumer societies and also

into the consequences consumerism had on the practices of retailing **Engines of Change** Paul Ingrassia,2012-05 From Pulitzer Prize winning journalist Ingrassia comes an American cultural history that explores how cars have both propelled and reflected the national experience from the Model T to the Prius

Consumer Debt and Social Exclusion in Europe Hans-W. Micklitz,Irina Domurath,2016-03-09 This book analyses the dichotomy between the goal of social inclusion and the effect of social exclusion through over indebtedness since 2008 in Europe Filling a vital gap in the current literature on the effects of the financial and economic crisis this volume puts into context academic discussion with the real life dimension of over indebtedness Reports from six European countries provide socio economic and legal information on over indebtedness as well as the regulatory and judicial responses to the problems entailed by over indebtedness They form the empirical background for five analyses of different aspects of the inclusion exclusion dichotomy It becomes clear that in the context of credit expansion individual over indebtedness has turned into a social issue which the current design of the consumer credit and mortgage system in Europe has helped to produce while disregarding the consequential danger of social exclusion
