The Arab World Halim Barakat,1993-10-14 This wide ranging examination of Arab society and culture offers a unique opportunity to know the Arab world from an Arab point of view Halim Barakat an expatriate Syrian who is both scholar and novelist emphasizes the dynamic changes and diverse patterns that have characterized the Middle East since the mid nineteenth century The Arab world is not one shaped by Islam nor one simply explained by reference to the sectarian conflicts of a mosaic society Instead Barakat reveals a society that is highly complex with many and various contending polarities It is a society in a state of becoming and change one whose social contradictions are at the root of the struggle to transcend dehumanizing conditions Arguing from a perspective that is both radical and critical Barakat is committed to the improvement of human conditions in the Arab world

Armies of Sand Kenneth Michael Pollack,2019 Since the Second World War Arab armed forces have consistently punched below their weight They have lost many wars that by all rights they should have won and in their best performances only ever achieved quite modest accomplishments Over time soldiers scholars and military experts have offered various explanations for this pattern Reliance on Soviet military methods the poor civil military relations of the Arab world the underdevelopment of the Arab states and patterns of behavior derived from the wider Arab culture have all been suggested as the ultimate source of Arab military difficulties Armies of Sand Kenneth M Pollack s powerful and riveting history of Arab armies from the end of World War Two to the present assesses these differing explanations and isolates the most important causes Over the course of the book he examines the combat performance of fifteen Arab armies and air forces in virtually every Middle Eastern war from the

Jordanians and Syrians in 1948 to Hizballah in 2006 and the Iraqis and ISIS in 2014 2017 He then compares these experiences to the performance of the Argentine Chadian Chinese Cuban North Korean and South Vietnamese armed forces in their own combat operations during the twentieth century The book ultimately concludes that reliance on Soviet doctrine was more of a help than a hindrance to the Arabs In contrast politicization and underdevelopment were both important factors limiting Arab military effectiveness but patterns of behavior derived from the dominant Arab culture was the most important factor of all Pollack closes with a discussion of the rapid changes occurring across the Arab world political economic and cultural as well as the rapid evolution in war making as a result of the information revolution He suggests that because both Arab society and warfare are changing the problems that have bedeviled Arab armed forces in the past could dissipate or even vanish in the future with potentially dramatic consequences for the Middle East military balance Sweeping in its historical coverage and highly accessible this will be the go to reference for anyone interested in the history of warfare in the Middle East since 1945

Arabs in the Mirror Nissim Rejwan, 2009-02-17 What is an Arab Though many in the West would answer that question with simplistic stereotypes the reality is far more complex and interesting Arabs themselves have been debating Arab identity since pre Islamic times coming to a variety of conclusions about the nature and extent of their Arabness Likewise Westerners and others have attempted to analyze Arab identity reaching mostly negative conclusions about Arab culture and capacity for self government To bring new perspectives to the question of Arab identity Iraqi born scholar Nissim Rejwan has assembled this fascinating collection of writings by Arab and Western intellectuals who try to define what it means to be Arab He begins with pre Islamic times and continues to the last decades of the twentieth century quoting thinkers ranging from Ibn Khaldun to modern writers such as al Ansari Haykal Ahmad Amin al Azm and Said Through their works Rejwan shows how Arabs have grappled with such significant issues as the influence of Islam the rise of nationalism the quest for democracy women s status the younger generation Egypt s place in the Arab world Israel s role in Middle Eastern conflict and the West s cultural invasion By letting Arabs speak for themselves *Arabs in the Mirror* refutes a prominent Western stereotype that Arabs are incapable of self reflection or self government On the contrary it reveals a rich tradition of self criticism and self knowledge in the Arab world
