Ten Commitments To Your Success:

Ten Commitments to Your Success Steve Chandler, 2010 America's notoriously unorthodox and creative personal growth guru Steve Chandler has written his most compact and powerful book yet in **TEN COMMITMENTS TO YOUR SUCCESS** By explaining and dramatizing the power of introducing synergy into your life Chandler demolishes the myth that a balanced life is mediocre He reveals the underlying dynamic of commitment how to access it and how to apply it to the ten categories of your life that you usually don't get committed to The author delivers exciting new ways to commit to your career your partner your wealth your physical well being and your future The mind body spirit synergy which has been verified and validated by the biosciences as an absolutely necessary synergy for a quality life is expanded by the author into ten specific commitments to be made and kept on a daily basis These commitments then combine with each other to produce not a lone voice singing in the wilderness but a thrilling harmonic chorus that connects the individual to the entire universal web of living loving beings

The Ten Commitments David Simon, 2010-01-01 We all know the Ten Commandments and unfortunately most of us try to use the philosophy of thou shalt not eat too much work too hard etc to command ourselves to make changes David Simon noted researcher and co founder with Deepak Chopra of The Chopra Center suggests a different path instead of dwelling on the negative embrace the positive and make commitments to live a better life In doing so we will transform our intentions losing weight spending more time with family etc into concrete actions that will make change happen This short precise book is not a lecture but a practical primer on thoughtful change There is a continuing hunger for Eastern philosophy and spirituality among Westerners finally one of the West's top experts who has been writing on lecturing teaching and practicing Eastern thought for over three decades has melded these principles with our core Western beliefs giving us a new perspective on the basic way we live our lives Key Features Very warm and engaging tone excellent writing and numerous anecdotes make for a very compelling reading experience No new thought jargon just precise easily accessible advice This is a breakout book Helps us focus on the simplest answers much in the tradition of books like *Don't Sweat the Small Stuff* The ten step approach is familiar and comfortable Small inexpensive and beautifully packaged hardcover makes this a perfect gift or daily reader
