Ten Laws Of Lasting Love:

The Ten Laws of Lasting Love Paul Pearsall, 1995-02 Drawing on his 25 years experience of counseling couples the bestselling author of *Super Marital Sex* returns with ten laws that embody everything he has learned about making the kind of relationships that last and grow more satisfying with time Partners in Pleasure Paul Pearsall, 2001 This sequel to Pearsall's bestselling *The Pleasure Prescription* shows couples the way to true happiness Drawing on 2 000 year old Polynesian wisdom *Partners in Pleasure* shows how to go beyond self fulfillment to selfless shared pleasure The Foreword features rare written wisdom from a well respected kapuna Hawaiian elder **Mad About Us** Doug McKinley, 2004-05

New Millennial Sexstyles Carol Siegel, 2000 *New Millennial Sexstyles* questions the twin feminist orthodoxies that the 1960s sexual revolution failed women and that the sexual attitudes most prominent in current youth cultures are deplorably regressive Comparing the American sexscape she inhabits to the vision of contemporary culture produced by feminist theorists Carol Siegel considers whether the sexual revolution may have succeeded but in ways not recognized by current academic studies of gender and sexuality In discouraging undomesticated heterosexuality academic feminism ignores the connection between mainstream opposition to all unrestrained sexual expression and the growth of new forms of homophobia in our times At the same time the youth subcultures challenges to these views of sexuality and gender have been dismissed as insignificant or misunderstood as sexist In this book they receive more respectful attention Siegel draws on her own experience as a college student to create a personal history of academic feminism's early sympathy with bourgeois values She looks at the development of American sex advice literature and at the reception of such transgressive popular films as *Basic Instinct* *Thelma and Louise* and *Natural Born Killers* to demonstrate that the most profoundly capitalist feminist theories have always been the most culturally authoritative A more encouraging vision emerges in the book's second half where a record of conversations about sex and gender with young people and of their responses to products designed for their consumption takes the reader through some of today's most radical youth cultures and suggests new directions for gender studies **The Way of the Beloved** Robert Arsdale, Diana Van Arsdale, 2016-11-18 The foundation of the Way of the Beloved is discovered in the heart of love itself where there lives and moves a will to exaltation of the other To truly love another is to will the spiritual ideal upon that beloved one When there is a mutual intention to exalt infusing the daily life of a man and woman they enter into the Way of the Beloved This handbook is an attempt to put into book form what authors Robert and Diana Van Arsdale have been teaching to small groups of couples since 1976 Their workshops offer an ageless set of protocols for the transformation of the love relationship between a woman and a man into a path of spiritual development Here they present an integrated body of progressive experiential exercises and meditations that were taught originally taught by Herman Rednick Simply stated *The Way of the Beloved* teaches a couple how to actualize the potential of their relationship through the intensification of love and compassion Designed for couples in search of spiritual and emotional
