Tense And Aspect In The Languages Of Europe:

Tense and Aspect in the Languages of Europe Östen Dahl, 2000 The series is a platform for contributions of all kinds to this rapidly developing field General problems are studied from the perspective of individual languages language families language groups or language samples Conclusions are the result of a deepened study of empirical data Special emphasis is given to little known languages whose analysis may shed new light on long standing problems in general linguistics

Eurotyp Östen Dahl, 2008 This volume puts the European tense aspect systems in a consistent typological and diachronic perspective Adverbial Constructions in the Languages of Europe Johan van der Auwera, 2011-05-09 The series is a

platform for contributions of all kinds to this rapidly developing field General problems are studied from the perspective of individual languages language families language groups or language samples Conclusions are the result of a deepened study of empirical data Special emphasis is given to little known languages whose analysis may shed new light on long standing problems in general linguistics

Slavic on the Language Map of Europe Andrii Danylenko, Motoki Nomachi, 2019-10-08 Conceptually the volume focuses on the relationship of the three key notions that essentially triggered the inception and subsequent realization of this project to wit language contact grammaticalization and areal grouping Fully concentrated on the areal typological and historical dimensions of Slavic the volume offers new insights into a number of theoretical issues including language contact grammaticalization mechanisms of borrowing the relationship between areal genetic and typological sampling conservative features versus innovation and socio linguistic aspects of linguistic alliances conceived of both synchronically and diachronically The volume integrates new approaches towards the areal typological profiling of Slavic as a member of several linguistic areas within Europe including SAE the Balkan Sprachbund and Central European groupings s like the Danubian or Carpathian areas as well as the Carpathian Balkan linguistic macroarea Some of the chapters focus on structural affinities between Slavic and other European languages that arose as a result of either grammatical replication or borrowing A special emphasis is placed on contact induced grammaticalization in Slavic micro languages

The L2 Acquisition of Tense Aspect Morphology M. Rafael Salaberry, Yasuhiro Shirai, 2002-10-24 The present volume provides a cross linguistic perspective on the development of tense aspect in L2 acquisition Data based studies included in this volume deal with the analysis of a wide range of target languages Chinese English Italian French Japanese and Spanish Theoretical frameworks used to evaluate the nature of the empirical evidence range from generative grammar to functional typological linguistics Several studies focus on the development of past tense markers but other issues such as the acquisition of a future marker are also addressed An introductory chapter outlines some theoretical and methodological issues that serves as relevant preliminary reading for most of the chapters included in this volume Additionally a preliminary chapter offers a substantive review of first language acquisition of tense aspect morphology The analysis of the various languages included in this volume significantly advances our understanding of this phenomenon and will serve as an

important basis for future research The Grammaticalization of Tense, Aspect, Modality and Evidentiality Kees Hengeveld, Heiko Narrog, Hella Olbertz, 2017-09-11 This book brings together a series of contributions to the study of grammaticalization of tense aspect and modality from a functional perspective All contributions share the aim to uncover the functional motivations behind the processes of grammaticalization under discussion but they do so from different points of view

Evidential Marking in European Languages Björn Wiemer, Juana I. Marin-Arrese, 2022-03-07 How are evidential functions distinguished by means other than grammatical paradigms i.e. by function words and other lexical units And how inventories of such means can be compared across languages against an account also of grammatical means used to mark information source This book presents an attempt at supplying a comparative survey of such inventories by giving detailed evidential profiles for a large part of European languages Continental Germanic English French Basque Russian Polish Lithuanian Modern Greek and Ibero Romance languages such as Catalan Galician Portuguese and Spanish Each language is treated in a separate chapter and their profiles are based on a largely unified set of concepts based on function and/or etymological provenance The profiles are preceded by a chapter which clarifies the theoretical premises and methodological background for the format followed in the profiles The concluding chapter presents a synthesis of findings from these profiles including areal biases and the formulation of methodological problems that call for further research

Language Contact in Europe Bridget Drinka, 2017-02-16 This book traces the spread of the perfect tense across Europe demonstrating the crucial role of language contact

Tense, Aspect, Modality, and Evidentiality Dalila Ayoun, Agnès Celle, Laure Lansari, 2018-08-15 After an introductory chapter that provides an overview to theoretical issues in tense aspect modality and evidentiality this volume presents a variety of original contributions that are firmly empirically grounded based on elicited or corpus data while adopting different theoretical frameworks Thus some chapters rely on large diachronic corpora and provide new qualitative insight on the evolution of TAM systems through quantitative methods while others carry out a collostructional analysis of past tensed verbs using inferential statistics to explore the lexical grammar of verbs A common goal is to uncover semantic regularities and variation in the TAM systems of the languages under study by taking a close look at context Such a fine grained approach contributes to our understanding of the TAM systems from a typological perspective The focus on well known Indo European languages e.g. French German English Spanish and also on less commonly studied languages e.g. Hungarian Estonian Avar Andi Tagalog provides a valuable cross linguistic perspective

Language Variation - European Perspectives IV Peter Auer, Javier Caro Reina, Göz Kaufmann, 2013-05-28 The eighteen contributions in this volume are based on papers presented at the 6th International Conference on Language Variation in Europe ICLaVE 6 which was held at the University of Freiburg Germany from June 29 to July 1 2011 The volume includes plenaries by Sjef Barbiers Where is syntactic variation and Arnulf Deppermann Stefan Kleiner Deppermann Kleiner and Knut Katerbow Moosmüller and Scheutz Schätzler Schleef West Zeller Ziegler but morphological variation Cornips and Hulk Dal Negro

morphosyntactic variation Melissaropoulou Themistocleous Tsiplakou and Tsolakidis and syntactic variation Barbiers H kansson Rothmayr are also represented Additional papers deal with code switching
