Ambrose,2001-08-14 Stephen E Ambrose acclaimed author of Band of Brothers and Undaunted Courage carries us along in the crowded and dangerous B 24s as their crews fought to destroy the German war machine during World War II The young men who flew the B 24s over Germany in World War II fought against horrific odds and in The Wild Blue Ambrose recounts their extraordinary heroism skill daring and comradeship with vivid detail and affection Ambrose describes how the Army Air Forces recruited trained and selected the elite few who would undertake the most demanding and dangerous jobs in the war These are the boys turned pilots bombardiers navigators and gunners of the B 24s who suffered over fifty percent casualties With his remarkable gift for bringing alive the action and tension of combat Ambrose carries us along in the crowded uncomfortable and dangerous B 24s as their crews fought to the death through thick black smoke and deadly flak to reach their targets and destroy the German war machine Twenty two year old George McGovern who was to become a United States senator and a presidential candidate flew thirty five combat missions all the Army would allow and won the Distinguished Flying Cross We meet him and his mates his co pilot killed in action and crews of other planes Many went down in flames As Band of Brothers and Citizen Soldiers portrayed the bravery and ultimate victory of the American soldiers from Normandy on to Germany The Wild Blue illustrates the enormous contribution that these young men of the Army Air Forces made to the Allied victory The Ditches of Nevada City Dom Lindars,2023-04-07 This book tells the history of Nevada City California through the eyes of the men that built it For its first 100 years everything in Nevada City revolved around gold But this is not another book about finding gold To get gold you needed water to pan for it to wash it in a sluice to blast away a hillside with an immense water cannon or to turn the water wheel of a quartz ore stamp mill This book instead asks How did they get the water It reveals the engineering marvels that brought water to Nevada City s dry hills from tens of miles away But what if all the water in every ravine creek and valley around Nevada City was controlled by just three men Well for three decades every miner farmer or business could only buy water from the

powerful South Yuba Canal Company What would happen if you got into an argument with them Or couldn t afford to pay their water bill Or even dared to compete with them The book traces the ingenuity and hard work of the town s miners and ditch builders highlighting in detail the history and origins of various local neighborhoods including Nevada City itself Hirschman s Pond Sugar Loaf Mountain Deer Creek Scotts Flat Manzanita Diggings Gold Flat and various mining camps along Washington Ridge This vivid portrayal follows the area s evolution from the chaos of thousands of miners scratching out a living in clusters of muddy tents to a genteel town with hotels stores banks theaters and libraries What began as a search to uncover a sprawling network of old ditches turned into a collection of never before told stories of the gold miners the ruthless and greedy ditch company and the rivals that it crushed The domineering ditch company later enabled the next generation of monopoly to provide electrical power The story of PG E also started in Nevada City This in turn led to the now more forward looking stewardship of the Nevada Irrigation District The unique format of this book blends beautiful archival images with more than 35 in depth biographies of key figures in Nevada City This 884 page hardcover book includes over 600 photos and illustrations including 200 historic photographs and 75 hand crafted maps based on modern lidar technology that reveal the locations of the old mining ditches flumes mines and tunnels [Bulletin of the American Museum of Natural History](#) American Museum of Natural History,1907 Comprises articles on geology paleontology mammalogy ornithology entomology and anthropology
