Propiciadas por el desarrollo de la imprenta las continuaciones literarias conocen en la España de la Edad Clásica un verdadero auge que afecta a todos los ámbitos de la ficción. Sin embargo este fenómeno no es totalmente nuevo puesto que durante la Edad Media cualquier elaboración literaria se centraba en la reutilización y continuación de textos ajenos. Sin hacer caso omiso de esta herencia medieval este libro trata de especificar la noción de continuación para la época moderna considerándola como una modalidad peculiar del préstamo. Situándose por encima de las fronteras generacionales ofrece un estudio de conjunto de esta práctica proponiendo una arqueología de la misma y tomando en cuenta la dimensión creativa que conllevan las obras correspondientes.

The Invention of the Sequel William H. Hinrichs, 2011 This book proposes a new way of tracing the history of the Early Modern Spanish novel through the prism of literary continuation. It identifies and examines the Golden Age narratives that invented the sequel and the narrative genres that the sequel in turn invented. This book proposes a new way of tracing the history of the Early Modern Spanish novel through the prism of literary continuation. It identifies and examines the Golden Age narratives that invented the sequel and the narrative genres that the sequel in turn invented. The author explores the rivalries between apocryphal and authorized sequelists that forged modern notions of authorship and authorial property. The book also defines the sequel's forms and functions filling a major gap in literary theory in general and Peninsular literary studies in particular. Notably the author demonstrates that the sequel develops first and foremost in Early Modern Spain an unacknowledged and unexamined contribution to Western letters. With its panoramic scope this study serves as an introduction to the central novelistic genres and texts of Early Modern Spain. From this foundational starting point it also offers a general framework for understanding imaginative expansion in subsequent time periods and literary traditions. William H. Hinrichs is a founding faculty member and Assistant Professor of Modern Languages at Bard High School Early College Queens.

Dark Prisms Robert Lima, 2021-10-21 The mythological folkloric and religious beliefs of Western culture have resulted in a long and ongoing history of esoteric themes in theatre from the Middle Ages to the present in Spain and the Americas. Now Robert Lima a noted comparatist brings to bear on this material his wide knowledge of the world of the occult. Lima defines the terms occult and occultism broadly to embrace the many ways in which humans have sought to fathom a secret knowledge held to be accessible only through such supernatural agencies as alchemy angelology asceticism astrology demonolatry divination ecstasy magic necromancy possession Santería voodoo and witchcraft. The dramatic works covered range from medieval materializations of Hell to the Golden Age plays of Lope de Vega Tirso de Molina and Calderón de la Barca to modern stage works by Valle Inclán García Lorca Casona Miras and a number of significant Afro-Brazilian and Caribbean dramatists. The concluding comprehensive bibliography of the drama of the occult is invaluable.

Widowhood in Early Modern Spain Stephanie Fink De Backer, 2010-11-26 Based on clerical ideals of female comportment and Golden Age playwrights' fixation on questions of honor modern scholarship whether historical or literary has viewed women as subjects and objects of patriarchal control. This study analyzes tensions and contradictions

produced by the interplay of patriarchal norms and the realities of widows daily lives to demonstrate that in Castile patriarchy did not exist as a monolithic force which rigidly enforced an ideology of female incapacity The extensive analysis of archival documents shows widows actively engaged in their families and communities confounding images of their reclusion and silence Widows autonomy and authority were desirable attributes that did not collide with the demands of a society that recognized the contingent nature of patriarchal norms

The Criminal Baroque Ted Lars Lennard Bergman,2021 TEMPORARY Bergman looks at the representation of criminals in early modern Spanish theatre and the connection between criminality the portrayal of criminal heroes on stage and public displays of law enforcement within and outside the playhouse His main purpose is to see to how Baroque spectacle a term of art in theatre that refers to a particular event often in expressions of popular culture appears either to align itself work against or be independent of the social means of control of the day His main argument is that that the propaganda power of early modern Spanish spectacle has been vastly overstated Ted L L Bergman is a Lecturer in Spanish University of St Andrews
