Men and Women Making Friends in Early Modern France Lewis C. Seifert, Rebecca M. Wilkin, 2016-03-03 Today the friendships that grab people s imaginations are those that reach across inequalities of class and race The friendships that seem to have exerted an analogous level of fascination in early modern France were those that defied the assumption inherited from Aristotle and patristic sources that friendships between men and women were impossible Together the essays in *Men and Women Making Friends in Early Modern France* tell the story of the declining intelligibility of classical models of male friendship and of the rising prominence of women as potential friends The revival of Plato s friendship texts in the sixteenth century challenged Aristotle s rigid ideal of perfect friendship between men In the seventeenth century a new imperative of heterosociality opened a space for the cultivation of cross gender friendships while the spiritual friendships of the Catholic Reformation modeled relationships that transcended the gendered dynamics of galanterie *Men and Women Making Friends in Early Modern France* argues that the imaginative experimentation in friendships between men and women was a distinctive feature of early modern French culture The ten essays in this volume address friend making as a process that is creative of self and responsive to changing social and political circumstances Contributors reveal how men and women fashioned gendered selves and also circumvented gender norms through concrete friendship practices By showing that the benefits and the risks of friendship are magnified when gender roles and relations are unsettled the essays in this volume highlight the relevance of early modern friend making to friendship in the contemporary world

Imagery, Spirituality and Ideology in Baroque Spain and Latin America Marta Bustillo, Jeremy Roe, 2010-02-19 This volume offers a series of essays that explore the significance of visual imagery as a medium for the representation of spiritual and ideological concerns by the Catholic Church in the Spanish Habsburg Empire Each of these essays provides a valuable contribution to established areas of research such as Velázquez studies St Teresa of Avila as spiritual exemplar for the Counter Reformation in Spain the iconography of St Francis of Assisi or the evolution of Peruvian Christian iconography A valuable contribution of all these essays is their discussion of new visual and textual sources which are revealing of the diverse modes of representation developed by the Church to Delight Move and Instruct the many and diverse spectators of its artistic message Together these essays provide a range of critical perspectives on the complex cultural political and spiritual context that shaped the evolution of Religious Art in cities as distant as Cuzco and Madrid

Voicing Dissent in Seventeenth-Century Spain Patricia Manning, 2009-09-29 Although the Spanish Inquisition looms large in many conceptions of the early modern Hispanic world relatively few studies have been made of the Spanish state and Inquisition s approach to book censorship in the seventeenth century Merging archival and rare book research with a case study of the fiction of Baltasar Gracián this book argues that privileged authors like the Jesuit Gracián circumvented publication strictures that were meant to ensure that printed materials conformed to the standards of Catholicism and supported the goals of the absolute monarchy In contrast to some elite authors who composed readily transparent critiques of authorities and encountered difficulties with the state and Inquisition others like Gracián made their criticisms covertly in complicated texts like *El Criticón*
