Daniel Hillyard, John Dombink

Terminal Choices Euthanasia Suicide And The Right To Die:

Terminal Choices Robert N. Wennberg, 1989 A discussion of the moral religious legal and personal issues surrounding euthanasia suicide and the right to die *Voluntary Euthanasia and the Common Law* Margaret Otlowski, 1997 Margaret Otlowski investigates the complex and controversial issue of active voluntary euthanasia She critically examines the criminal law prohibition of medically administered active voluntary euthanasia in common law jurisdictions and carefully looks at the situation as handled in practice The evidence of patient demands for active euthanasia and the willingness of some doctors to respond to patients requests is explored and an argument for reform of the law is made with reference to the position in the Netherlands where active voluntary euthanasia is now openly practiced **Assisted Death in Europe and America**

Guenter Lewy, 2011 Advances in medical treatment now enable physicians to prolong life to a previously unknown extent however in many instances these new techniques mean not the saving of life but prolonging the act of dying In the eyes of many medical technology has run out of control and contributes to unnecessary suffering Hence the demand has arisen that patients should be entitled to choose death when pain and physical and mental deterioration have destroyed the possibility of a dignified and meaningful life and that their doctors should help them to realize this endeavor At the present time there are seven jurisdictions in the world that with various restrictions have legalized the practice of assisted death physician assisted suicide and or voluntary euthanasia to wit the Netherlands Belgium Luxembourg Switzerland in Europe and the states of Oregon Washington and Montana in the United States Four of these regimes in the Netherlands Belgium Switzerland and the state of Oregon have been functioning for many years and we have for them a substantial body of data as well as much observational research This book is based upon this material The literature dealing with the moral legal and social aspects of assisted death is voluminous but there is a paucity of writing that provides a detailed account of the way these four regimes are actually working Many partisans on both sides of the issue cite existing data selectively or at times willfully distort the empirical evidence in order to strengthen their case Based on the documentary record and interviews with officials and scholars this book seeks to give the specialist as well as the general interested reader a reliable picture of the way assisted death functions and to draw relevant lessons While accurate factual information cannot settle a moral debate it nevertheless is a precondition of any well founded argument The author speaks authoritatively about the issues he addresses I think this book does make an important contribution to the field It will be of interest to students and scholars of PAS as a source of information and reference I definitely recommend publication Stuart Youngner Department of Bioethics Case Western Reserve University School of Medicine The information collected here makes an important contribution to the literature on PAS because it collects a broad array of relevant information into a single volume It is interesting and enlightening This will make the book a valuable resource for anyone interested in the subject and an especially useful resource for academics who study or teach about the issues Rosamond Rhodes Director Bioethics Education Mt Sinai School of Medicine **Dying**

Right Daniel Hillyard, John Dombrink, 2002-06 Dying Right provides an overview of the Death With Dignity movement a history of how and why Oregon legalized physician assisted suicide and an analysis of the future of physician assisted suicide Engaging the question of how to balance a patient's sense about the right way to die a physician's role as a healer and the state's interest in preventing killing Dying Right captures the ethical legal moral and medical complexities involved in this ongoing debate

Euthanasia Josef Kuře, 2011-09-15 No one really wants to die or do they From classical times to our post modern era of medical high tech societies have struggled with the thorny issue of euthanasia and what it entails Who shall be entitled to a good death and in what form shall it arrive This book provides the reader with insight and enlightenment on the medical philosophical social cultural and existential aspects of good death amid our digitized individualized and ageing society hampered by rising health care costs but unchained from one standardized level of care

Law, Immunization and the Right to Die Jennifer Hardes, 2016-03-10 Law Immunization and the Right to Die focuses on the urgent matter of legal appeals and judicial decisions on assisted death Drawing on key cases from the United Kingdom and Canada the book focuses on the problematic paternalism of legal decisions that currently deny assisted dying and questions why the law fails to recognize what many describe as compassionate motives for assisted death When cases are analyzed as discourses that are part of a larger socio political logic of governance judicial decisions it is argued here reveal themselves as relying on the construction of neoliberal fictions fictions that are here elucidated with reference to Michel Foucault's theoretical insights on pastoral power and Roberto Esposito's philosophical thesis on immunization Challenging the socio political logic of neoliberalism the issue of assisted dying goes beyond the predominant legal concern with protecting or immunizing individuals from one another in favor of minimal interference This book calls for a new kind of politics one that might affirm people and their finitude both more collectively and more compassionately

When Is It Right to Die? Joni Eareckson Tada, 2018-01-30 More and more people who are terminally ill are choosing assisted suicide When is it Right to Die offers a different path with alternatives of hope compassion and death with real dignity Joni Eareckson Tada knows what it means to wrestle with this issue and to wish for a painless solution For the last 50 years she has been confined to a wheelchair and struggled against her own paralysis And she sat by the bedside of her dying father thinking So much suffering why not end it all quickly painlessly The terminally ill the elderly the disabled the depressed and suicidal can all be swept up into this movement of self deliverance Skip the suffering Put a quick end to merciless pain and mental anguish These are tempting enticements to the hurting Joni doesn't give pat answers Instead she gives warm comfort from God and practical help to meet the realities for those facing death When Is It Right to Die tells the stories of families who have wrestled with end of life questions and found that death with dignity does not necessarily mean three grams of Phenobarbital in the veins Behind every right to die situation is a family A family like yours In her warm personal way Joni takes the reader into the lives of families and lets them speak about assisted suicide What they say is surprising Whether you have a dying family member

facing moral and medical choices or struggling with a chronic condition that feels overwhelming this book will help you find practical encouragement and biblical advice to help you make difficult decisions This book is revised and updated to examine the current events trending issues and the rising acceptance of assisted suicide in this country The Christian Art of Dying Allen Verhey,2011-11-28 A renowned ethicist who himself faced death during a recent life threatening illness Allen Verhey in The Christian Art of Dying sets out to recapture dying from the medical world Seeking to counter the medicalization of death that is so prevalent today Verhey revisits the fifteenth century *Ars Moriendi* an illustrated spiritual self help manual on the art of dying Finding much wisdom in that little book but rejecting its Stoic and Platonic worldview Verhey uncovers in the biblical accounts of Jesus death a truly helpful paradigm for dying well and faithfully Regulating how We Die Linda L. Emanuel,1998 Addressing the subject of euthanasia medical ethicist Dr Linda Emanuel assembles testimony from leading experts to provide not only a clear account of the arguments for and against physician assisted suicide and euthanasia but also historical empirical and legal perspectives on this complex and often heart rending issue Write to Death Elizabeth A. Gailey,2003-09-30 Has the mainstream media been careless in reporting on the issue of euthanasia As the Right to Die and Physician Assisted Suicide movements gather steam the national media have been too quick to perpetuate and focus on the medical and legal overtones of death The ethical religious and philosophical dimensions of our increased acceptance of euthanizing the aged infirm and disabled are often neglected Gailey argues that the press s failure to enrich public discourse may well erode its trustworthiness in the public s eye Using abundant examples from analysis of elite mainstream news publications Gailey details how the national press systematically advanced pro euthanasia views and interpretations while marginalizing or omitting pro life perspectives and frames The battle over legalizing passive and active euthanasia has enormous social economic and ethical implications An understanding of how the news media frame or package such issues for public consumption is critical Gailey s integrative approach combines an exploration of the major historical ideational and economic factors leading to the rise of the Right to Die movement and includes in depth analysis of the media s framing of the controversy in the two decades Karen Ann Quinlan s coma in 1975 to Dr Jack Kevorkian s 1999 conviction
