The Ancient World Manners And Morals:

The Ancient World: Manners and Morals Jack Lindsay, 1968 *Ten Materials That Shaped Our World* M. Grant Norton, 2025-07-17 This Premium Edition of *Ten Materials That Shaped Our World* is part of a small audiobook pilot program at Springer Nature. It includes audio files accessible online via the Springer Nature MoreMedia App. This book examines ten materials: flint, clay, iron, gold, glass, cement, rubber, polyethylene, aluminum, and silicon, explaining how they formed, how we discovered them, why they have the properties they do, and how they have transformed our lives. Since the dawn of the Stone Age, we have shaped materials to meet our needs, and in turn, those materials have shaped us. The fracturing of flint created sharp, curved surfaces that gave our ancestors an evolutionary edge. Molding clay and then baking it in the sun produced a means of recording the written word and exemplified human artistic imagination. As our ability to control heat improved, earthenware became stoneware and eventually porcelain, the most prized ceramic of all. Iron, cast at high temperatures, formed the components needed for steam engines, locomotives, and power looms, the tools of the Industrial Revolution. Gold has captivated humans for thousands of years and has recently found important uses in biology, medicine, and nanotechnology. Glass, shaped into early and imperfect lenses, not only revealed the microscopic world of cells and crystals but also allowed us to discover stars and planets beyond those visible with the naked eye. Silicon revolutionized the computer, propelling us into the Information Age, and with it, our interconnected social networks, the Internet of Things, and artificial intelligence. Written by a materials scientist, this book explores not just why but also how certain materials came to be so fundamental to human society. This enlightening study captivates anyone interested in learning more about the history of humankind, our ingenuity, and the materials that have shaped our world.

Backgrounds of Early Christianity Everett Ferguson, 2003-08-19 Having long served as a standard introduction to the world of the early church, Everett Ferguson's *Backgrounds of Early Christianity* has been expanded and updated in this third edition. The book explores and unpacks the Roman, Greek, and Jewish political, social, religious, and philosophical backgrounds necessary for a good historical understanding of the New Testament and the early church. New to this edition are revisions of Ferguson's original material, updated bibliographies, and fresh discussions of first-century social life, Gnosticism, and of the Dead Sea Scrolls and other Jewish literature.

Medical Ethics in the Ancient World Paul Carrick, 2001-04-30 In this book, Paul Carrick charts the ancient Greek and Roman foundations of Western medical ethics. Surveying 1500 years of pre-Christian medical moral history, Carrick applies insights from ancient medical ethics to developments in contemporary medicine, such as advance directives, gene therapy, physician-assisted suicide, abortion, and surrogate motherhood. He discusses such timeless issues as the social status of the physician, attitudes toward dying and death, and the relationship of medicine to philosophy, religion, and popular morality. Opinions of a wide range of ancient thinkers are consulted, including physicians, poets, philosophers, and patients. He also explores the puzzling question of Hippocrates' identity, analyzing not only the Hippocratic Oath but also the Father of Medicine's lesser-known works. Complete

with chapter discussion questions illustrations a map and appendices of ethical codes Medical Ethics in the Ancient World will be useful in courses on the medical humanities ancient philosophy bioethics comparative cultures and the history of medicine Accessible to both professionals and to those with little background in medical philosophy or ancient science Carrick's book demonstrates that in the ancient world as in our own postmodern age physicians philosophers and patients embraced a diverse array of perspectives on the most fundamental questions of life and death *Peter Singer and Christian Ethics* Charles C. Camosy, 2012-04-12 This book explores a number of important issues to illuminate the common ground between Peter Singer and Christian ethics **The History of Christianity** Dyrón B. Daugherty, 2019-07-08 Christianity has been accused of being misogynistic pro slavery and anti science and some say it is finally beginning its long decline This book provides an entirely different side to the stories about this faith Why did Christianity become the largest religion in the world Is it because it was misogynistic pro slavery anti science and set on condemning those who didn't join it This book investigates many of the misconceptions about Christianity and argues that there are good reasons this faith has become the world's largest The book includes chapters on various misconceptions related to the history of Christianity such as the beliefs that Jesus was a meek and mild carpenter the Roman emperor Constantine was insincere in his Christian faith medieval Europe was devoutly Christian and Christianity was anti science Each chapter explores how the historical misconception developed and spread and offers what we now believe to be the historical truth contradicting the fiction Excerpts from primary source documents provide evidence for the historical misconceptions and truths and help readers to respond critically to claims about Christian history *The Ancient World from the Earliest Times to 800 A.D.* Willis Mason West, 1904

The Jewish Concern for the Church Christine Graef, 2017-03-09 The voices of Messianic rabbis and believers have been collected in this volume to share concerns about the gap that remains between Jews and the church For the past fifteen centuries the church has been predominantly Gentile Jews of faith were not considered Jews but as converted Today as Messianic congregations multiply and church denominations try to find their way back to the original principles of the early church the church is challenged to repair this relationship deepen its understanding of the apostles vision of one new man and be edified by the meaning in appointed observances that extended to graft in the wild olive branches For he himself is our peace who has made the two groups one and has destroyed the barrier the dividing wall of hostility Eph 2:14

Embracing the Other, 2008-01-01 In the wake of addressing multiculturalism transculturalism racism and ethnicity the issue of xenophobia and xenophilia has been somewhat marginalized The present collection seeks from a variety of angles to investigate the relations between Self and Other in the New Literatures in English How do we register differences and what does an embrace signify for both Self and Other The contributors deal with a variety of topics ranging from theoretical reflections on xenophobia its exploration in terms of intertextuality and New Zealand Maori historiography to analyses of migrant and border narratives and issues of transitionality authenticity and racism in Canada and South Africa Others

negotiate identity and alterity in Nigerian Malaysian Australian Indian Canadian and Caribbean texts or reflect on diaspora and orientalism in Australian Asian and West Indian contexts The Rise of Christianity Rodney Stark, 1996-06-02 Rodney Stark a sociologist by training has written a book that should end much of the Christian bashing occurring in academia Stark demonstrates that Christianity became popular very quickly because it offered its adherents a better faith than competing religions and treated those believers better both physically and spiritually
