Entrepreneurship Norris F. Krueger, 2002 This new collection provides a much needed retrospective view of the key academic work published in this area The papers here highlight the importance of studying entrepreneurship from a wide range of perspectives including research that derives from economics history sociology psychology and from different business disciplinary bases such as marketing finance and strategy The overall focus in this set is on entrepreneurial activity rather than specifically small or family owned business and favours research articles over those that deal purely with practice

The Psychology of Planning in Organizations Michael D. Mumford, Michael Frese, 2015-06-12 This book examines planning as the critical influence on performance at work and in organizations Bridging theory and practice it unites cutting edge research findings from cognitive science social psychology industrial and organizational psychology strategic management and entrepreneurship and describes the practical

applications of these research findings for practitioners interested in improving planning performance in organizations

The Implementation Challenge David Hussey, 1996-09-10 The implementation of appropriate strategies remains one of the most difficult areas of management Considerable thought energy and resources is given over to devising a strategic plan and it is to the fine detail of the plan that attention turns when things go wrong The plan rather than the implementation comes in for scrutiny because it is less problematic to analyse Perhaps this is because whereas the plan can be devised under pollution free almost laboratory conditions the working out of the plan takes place in the real world infected with real world variables But the whole point of a strategy is that it will be implemented and implemented successfully Much has been written on change management and transformational leadership all very relevant to strategy implementation but there are comparatively few books which look at the implementation process as a whole The Implementation Challenge aims to link the numerous concepts and approaches to the subject but recognizes the impact on implementation of the organization as it lives and breathes From the work of leading thinkers in the field of strategic management David Hussey has selected contributions specifically focusing on the theme of implementation Some of the work is to be found in Strategic Change this together with new material and four major case studies makes The Implementation Challenge thoroughly up to date and coherent It is intended to be thought provoking and to give practical aid to those involved with achieving successful implementation of their organization s strategic plans and thinking *Annals of Entrepreneurship Education and Pedagogy* _ 2014 Michael H. Morris, 2014-10-31 A sizable gap exists between the ample demands for and growing supply of entrepreneurship education and our understanding of how to best approach the teaching and learning of entrepreneurship To help close this gap the United States Association for
