The Definitive Journals Of Lewis And Clark Volume 9 John Ordway And Charles Floyd:

The Definitive Journals of Lewis and Clark Gary E. Moulton, 2004-01-01 This landmark volume contains the most complete listing and presentation of the plant specimens collected by the Lewis and Clark expedition All but one of the plants were collected by Meriwether Lewis the expedition s botanist The collection how ever was nearly lost over the years when it was scattered among various botanists who intended to catalog the expedition s scientific discoveries Fortunately for many years the specimens have been in the care of major institutions principally the Academy of Natural Sciences in Philadelphia The 239 extant items are brought together in one book for the first time This indispensable volume will assist researchers and enthusiasts hoping to identify each plant s date and place of collection and other information such as plant habitat and ethnobotanical use

The Definitive Journals of Lewis and Clark John Ordway, 2003-01-01 The dependable and matter of fact John Ordway was one of the mainstays of the Corps of Discovery promoted early on to sergeant and serving as an able leader during the captains absence Fascinated by the peoples and places he encountered Ordway became the most faithful journalist on the expedition recording information not found elsewhere and making an entry for every day during the expedition Ordway later married and became a prosperous owner of two plantations in Missouri His honest and informative account which remained undiscovered for a century offers an unforgettable glimpse of an enlisted man s experiences and observations as he and the Corps of Discovery embarked on the journey of a lifetime In contrast to Ordway s extensive chronicle stands the far too brief but intriguingly detailed eyewitness account of Sergeant Charles Floyd the only member to die on the expedition The journals of John Ordway and Charles Floyd are part of the celebrated Nebraska edition of the complete journals of the Lewis and Clark expedition which feature a wide range of new scholarship on all aspects of the expedition from geography to Indian cultures and languages to plants and animals
