Ancient Civilizations of the World Denny Rose & Rowan Allen,2018-05-08 About 5 000 years ago the first urban societies developed laying the foundations for the first civilizations Nearly all civilizations share the same few features they have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading Ancient Egyptian culture flourished between c 5500 BCE with the rise of technology as evidenced in the glass work of faience and 30 BCE with the death of Cleopatra VII the last Ptolemaic ruler of Egypt It is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land The culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as Greece and Rome Neolithic means e new stonee even though agriculture was the crowning achievement of the period Civilizations started out small Agriculture at first tended to tie only small groups together These groups also all settled along rivers important as a reliable and predictable source of water As time passed families usually worked the same plot of land over successive generations leading to the concept of ownership Ancient mortars and grinding tools unearthed in a large mound in the Zagros Mountains of Iran reveal that people were grinding wheat and barley about 11 000 years ago Grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples This was much further east than most sites known for early agriculture This book furnishes with utmost facility to all classes of readers the needed information on ancient civilization The unusual variety of the subject makes this a work of endless fascination **An Archaeology of Persecuted Peoples** Sandra

Scham,2024-11-29 This book examines the pasts and presents of some of the world s most persecuted peoples in search of answers to the question of why minorities living in Asia s Highlands with ancient roots in their homelands have been continually oppressed by both historical and modern governments The role of religious beliefs and practices is crucial to their story of isolation tenacity and resistance in the mountains of Asia The Rohingya Uyghurs Hazara Yazidis Armenians and Samaritans were among the earliest adopters of monotheist religions in their respective regions The chapters devoted to each of these ethno religious minorities explore the archaeological evidence for their millennia old presence in South East

and West Asia their historical trajectories and the more recent events that have decimated their populations and destroyed their ways of living Examining both the parochial and universalist roots of their beliefs and practices as they evolved from the Axial Age teachings of Zoroaster the Israelite prophets and Ancient Greek philosophers this book explains how the people of the Arakan Tienshan Hazarajat Sinjar Taurus and Gerizim mountains came to be regarded as perennial enemies of empires and nations *Civilizations of the Ancient Near East* Jack M. Sasson,1995 Consists of articles organized in eleven parts the ancient Near East in Western thought the environment population social institutions history and culture economy and trade technology and artistic production religion and science language writing and literature visual and performing arts and retrospective essays

GENESIS OF THE SUMERIAN AND ETRUSCAN TURKS AND THEIR LANGUAGE (BASED ON CUNEIFORM AND ETRUSCAN SCRIPT) Tariyel Az?rtürk,2024-06-05 The book represents an innovation in the field of translations from ancient cuneiform tablets It has been proven that all translations before us only demonstrate distortions and lack of substance in the texts Due to a lack of knowledge of the original language researchers tend to show bias towards Greek mythologies where there is no concept of time space of actions or the dwelling place of beings All of them are imaginary gods or groups of gods and goddesses residing in an unknown infinity of the Universe 90 percent of the translated texts are related to their names The language of the cuneiform script is ancient Turkic The Truth can only be revealed when reading them in this language Ancient humans engraved their thoughts and life realities into clay tablets There is no tablet outside the reality of human life They contain verses dedicated to the hard work of humans fields requiring plowing droughts water shortages crops spring garden prosperity There is the grief of a son for the loss of his mother astronomy volcanic eruptions horse disease sapa and methods of its treatment There is the longing of a poetess who found herself in a foreign land and dreams of her homeland among many others *The Mythology of Ancient Mesopotamia* Donald A.

Mackenzie,2020-12-17 The Mythology of Ancient Mesopotamia is a comprehensive study on the mythology and history of the ancient Mesopotamia The book starts with a historical summary of the rise and decline of Babylon and Assyria before it moves to scholar analyses of myths and legends of Babylon and Assyria with comparisons and parallels drawn to Greek Egyptian Norse Indian and other mythologies as well as Egyptian and Hebrew history International Symposium on East Anatolia—South Caucasus Cultures Mehmet Işıklı,Birol Can,Mehmet Işıklı,2015-09-04 The Southern Caucasus is a region of great historical cultural and strategic importance which means that it has become an indispensable research field for most of the social sciences particularly archaeology However despite its rich potential research in the areas of modern day Georgia Armenia Azerbaijan Nakhichevan North western Iran and North eastern Turkey has been inadequate when compared with other important culture basins such as Mesopotamia and the Mediterranean In October 2012 Atatürk University in Erzurum North eastern Anatolia Turkey with the patronage of the Eurasian Silk Road Universities Consortium ESRUC hosted a Symposium of academics from more than 120 science and education institutions around the world to discuss opinions and

share information about cultures in this region from its earliest times to the Middle Ages within the scope of Ancient History Archaeology Art History and Ethno archaeology This two volume publication is a compilation of 75 articles which were evaluated and selected by an Academic Committee from contributors who presented their academic papers at the Symposium
