The Dark Side of Families: Current Family Violence Research by David Finkelhor; Richard J. Gelles; Gerald T. Huddings; and Murray A. Straus.

Sage Publications, Inc. (2755 Tenth Avenue, Drive, Beverly Hills, California 90212), 1983. 264 pp., hardcover—\$29.95, softcover—\$14.95.

This book is a collection of 22 articles written by researchers from a wide range of academic disciplines including sociology, psychology, psychiatry, and medicine. It covers a broad spectrum of family problems such as wife battering, physical and sexual abuse of children, and marital rape.

David Finkelhor, in the opening chapter, urges readers to note the commonalities among the various forms of family violence and abuse.

Three chapters are devoted to violence against wives. Since the theories about the causes of wife beating are myriad, each chapter reflects the diversity of approaches offered to explain and resolve the problem.

Two articles are devoted to the physical and sexual abuse of children. Because contemporary research on the physical abuse of children dates back to the early 1960s, there is much information to use when writing about this problem. However, the extent of sexual abuse of children was not widely recognized until the mid-1970s; thus, the research and literature available is not as extensive.

The fourth section deals with marital rape, an area that is receiving increasing attention. Two articles are devoted to this subject: "A Sociological Perspective," and "Married Wives' Reactions to Marital Rape."

The final section is an appraisal of the current issues of family violence. Twelve articles cover a wide panoply of questions: (1)

when is the use of physical force "violent," (2) do we need new methods for dealing with abuse?, (3) women and child abuse: is it an issue we need?, (4) the intergenerational transmission of violence, and (5) what factors shape professional and social responses?

Each chapter concludes with a reference section. The book ends with a short biography of each of the editors and authors.

The Insanity Defense: Philosophical, Historical and Legal Perspectives by Donald H. J. Hermann.

Charles C. Thomas, Publisher (2600 South First Street, Springfield, Illinois 62717), 1983. 158 pp., hardcover—\$34.75.

This book, written by a lawyer, is a serious and knowledgeable guide for maintaining the legal defense of insanity as a basis for finding lack of responsibility and for precluding imposition of punishment as a result of a crime.

In the introduction, the insanity defense is defined as being primarily "justifiable as a means of separating those who lack the capacity for moral behavior from those who may be blamed for the moral harm that they do."

The historic development of the insanity defense is examined showing its evolution: was largely rooted in the religious and ethical practices and principles of Judeo-Christian tradition.

Chapter 5 discusses the meaning and justification of the practice of punishment, although the existence of legal insanity precludes a finding of guilt and thus bars punishment. The important point made here is that the insanity defense is based on the offender's lack of understanding that is precluded by certain mental disorders. "If he/she does not know what he has done, he/she should not be held responsible."

The author covers in depth both the moral and legal criteria for such a defense, citing legal arguments to substantiate his case. The author concludes there is an absolutely crucial distinction between the
