The Decline And Fall Of Public Broadcasting:

The Decline and Fall of Public Broadcasting David Barsamian, 2002

The Decline and Fall of Public Broadcasting

David Barsamian, 2001 Concentration of the media has reached new heights making it harder for alternative and critical voices to gain a hearing The recent 86 billion merger of Time Warner and AOL is just one of many signs of the narrowing of information sources Market pressures have also encroached on the original mission of public broadcasting which was to provide a voice for groups that may otherwise be unheard Yet around the country creative journalists and activists are creating more democratic informative and engaging media Whether they are working to defend and expand democratic access to existing media or building their own media alternatives through the radio television or the World Wide Web they are pioneering new ways of sharing information In the Decline and Fall of Public Broadcasting David Barsamian gives an insider's account of these new media activists and the challenges they confront drawing on his years of experience in public radio Since 1986 Barsamian has been the producer of the highly acclaimed Alternative Radio a weekly one hour public affairs program broadcast in North America Europe South Africa and Australia as well as short wave radio and the Internet David Barsamian is the producer of the award winning syndicated radio program Alternative Radio His interview books with luminaries such as Noam Chomsky Howard Zinn and Edward W Said have sold in the hundreds of thousands His most recent interview book is Propaganda and the Public Mind Conversations with Noam Chomsky South End Press 2001 He is also the author of Eqbal Ahmad Confronting Empire South End Press 2000 Also Available by David Barsamian Propaganda and the Public Mind Conversations with Noam Chomsky TP 16 00 0 89608 634 8 CUSA Eqbal Ahmad Confronting Empire TP 16 00 ISBN 0 89608 615 1 CUSA The Politics of Public Broadcasting in Britain and Japan Henry Laurence, 2022-07-29 The BBC and NHK have dominated their national media systems since the 1920s and still play a central role in shaping political social and cultural life Both are highly trusted news organizations and vitally influence national identity Yet despite remarkably similar organizational and funding structures they differ in their editorial autonomy relationship to the state and in the social and cultural roles they play While the BBC proud of its independence acts as a watchdog on the powerful NHK prefers a guide dog role cooperating with rather than confronting political elites The BBC is also more willing to challenge prevailing social norms often serving as an agent of social change NHK prefers to avoid controversy serving as an agent of social stability The book argues that these differences were shaped by decades of conflict and cooperation between broadcasters governments commercial media interest groups and audiences The broadcasters adopted distinctive editorial strategies to retain public support and elite approval in the face of technological upheaval hostility from commercial rivals and continuous political interference Both however continue to uphold the belief that democratic and social goals are better served by public rather than commercial media **It's Been Beautiful** Gayle Wald, 2015-04-01 In It's Been Beautiful Gayle Wald examines Soul the first African American black variety television show on public television which between 1968 and 1973 was

instrumental in expressing the diversity of black popular culture thought and politics as well as helping to create the notion of black community

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small, 2021-09-24 Drawing on a wealth of academic research statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers this book explores the transitions of the ABC under various types of organisational re strategising governance and political shifts The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing educating and entertaining the Australian public Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media In that process it has become politicised and trivialised thereby threatening its demise The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere There is no other book in the market that addresses the decline of the organisation the ABC and analyses the reasons for its demise within an organisational theoretical framework The book is written for an educated general audience with academics and media practitioners specifically in mind and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding budgets management and organisational strategies and evolution

The Algorithmic Distribution of

News James Meese, Sara Bannerman, 2022-09-22 This volume explores how governments policymakers and newsrooms have responded to the algorithmic distribution of the news Contributors analyse the ongoing battle between platforms and publishers evaluate recent attempts to manage these tensions through policy reform and consider whether algorithms can be regulated to promote media diversity and stop misinformation and hate speech Chapter authors also interview journalists and find out how their work is changing due to the growing importance of algorithmic systems Drawing together an international group of scholars the book takes a truly global perspective offering case studies from Switzerland Germany Kenya New Zealand Canada Australia and China The collection also provides a series of critical analyses of recent policy developments in the European Union and Australia which aim to provide a more secure revenue base for news media organisations A valuable resource for journalism and policy scholars and students Governing the Algorithmic Distribution of News is an important guide for anyone hoping to understand the central regulatory issues surrounding the online distribution of news

The History and Politics of Public Radio James T. Bennett, 2021-07-29 This book presents an absorbing study of how educational radio which originated to broadcast weather forecasts to farmers has become what the Pew Center calls the most trusted source of news for American liberals and a regular in the rogues gallery of election year conservative targets The Nielsen Company reported in late 2019 that 272 million Americans listen to traditional radio each week a number exceeding those who watch television use a smartphone or access the Internet Yet almost from the start radio has also been flayed as a noise box of inanity a transmitter of low brow entertainment an instrument of cultural degradation promoting vapid popular music and a medium whose ultimate purpose is to convince listeners to purchase the goods and services incessantly hawked by the advertisers who underwrite the programs and allegedly dictate content At the same time an alternative conception of radio existed as a vehicle for education and for cultural and intellectual and even political enlightenment Most proponents of this perspective disdained advertising revenue and sought subsidies from foundations wealthy patrons or varying levels of government The long winding road of educational radio led eventually to the creation of National Public Radio NPR a fixture on the left of the dial that can be seen as either the consummation or corruption of the educational radio movement Prized by many liberals especially affluent whites and disparaged by many conservatives NPR has become a potent symbol of the political polarization and cultural chasm that now characterizes the American conversation
