Sir John Beverley Robinson Patrick Brode, 1984-12-15 John Beverley Robinson 1791 1863 was one of Upper Canada's foremost jurists a dominating influence on the ruling elite and a leading citizen of nineteenth century Toronto who owned a vast tract of land on which Osgoode Hall now stands The loyalists had founded a colony firm in its devotion to the Crown with little room for dissent As a true loyalist son educated by John Strachan Robinson attempted to steer Upper Canada toward emulation of what he perceived to be Britain's ideal aristocratic society As a young ensign in the York militia he defended his sovereign at Queenston Heights and as acting attorney general he prosecuted traitors who threatened to undermine the colony Later as attorney general and de facto leader of the assembly during the 1820s he tried to mould the government to the British form But factors he never understood the influence of American democracy and liberalism in the Colonial Office ensured that Upper Canada would never be a new Albion Robinson was appointed chief justice in 1829 and his judicial career spanned thirty three years during which he insisted the courts were subservient to the legislature and established precedents declaring their role should be limited to the enforcement of existing laws with no independent creative function His long service on the bench represented both a preservation and a strengthening of the British tradition in Canadian law In this biography early Toronto comes alive through the eyes of a powerful man firm in his beliefs attractive to women respected by his fellows who sought to mould society to his own ideals For historians lawyers and students of jurisprudence who seek an understanding of the roots of legal practice in nineteenth century Ontario it is essential reading Electronic Format Disclaimer Image of The Three Robinson Sisters Emily Augusta and Louisa by George Theodore Berthon 1846 on page XV removed at the request of the rights holder Sir John Beverley Robinson Patrick Brode, White Man's Law Sidney L. well there are innovative treatments of the conservation movement of science's role in provincial society and of the relationship between society and culture in small towns Anyone with an interest in the history of Canada's most populous province will find much in this comprehensive collection

Idea of Loyalty in Upper Canada, 1784-1850 David Mills, 1988-10-01 Tory loyalty in addition to demanding unquestioning adherence to the imperial connection was exclusive It was used both to distinguish Loyalists from the American late comers and to differentiate supporters of the political status quo from opponents of the administration Tories and Reformers attached different qualities to loyalty Although the Tories framed the political debate a moderate Reform conception developed in response The importance of loyalty was unchallenged by moderate Reformers but they wished to redefine it in ways that would legitimize their own political goals They appealed to British political traditions that emphasized the idea of individual dissent based on constitutional rights and the necessary independence of legislators threatened by the use of prerogative power as well as the corruption of the executive By the 1830s the polarization of politics seemed to offer only two choices loyalty or disloyalty This transitional period led to the emergence of moderate and accommodative Toryism as a response to the exclusiveness of the Family Compact Moderate Toryism developed because other groups who were not prepared to give up their political and social exclusion had been drawn into the debate The moderate Reformers survived through the 1840s and entered the administration Tories also prospered through adoption of the Reform position permitting new groups to enter the High Tory elite The result was the formation of a conservative consensus which dominated Upper Canada whose conservatism lay in a new definition of loyalty which had evolved through the initiatives of moderate Reformers

This Great National Object Roberta M. Styran, Robert Taylor, 2012-03-22 Making extensive use of the National Archives and the Archives of Ontario Styran and Taylor unveil previously unpublished information about the construction of the canals including technical plans and drawings from a wide variety of sources They illustrate the technical and management intricacies of building a navigational trade and commerce lifeline while also revealing the vivid characters from businessman William Hamilton Merritt to engineer John Page who inspired the project and drove it to completion The history of the Welland Canals is a gripping tale of epic proportions Given the ongoing

importance of the Great Lakes in the North American economy interest in the St Lawrence Seaway of which the Welland is the Great Swivel Link and the relevance of labour history This Great National Object will be of interest to enthusiasts and historians alike *Elizabeth Postuma Simcoe, 1762-1850* Mary Beacock Fryer, 1989 The diaries letters and sketches of Elizabeth Simcoe are drawn upon as sources in this portrayal of the energetic and remarkable woman who came to Upper Canada with her husband when he was appointed lieutenant governor *The Capacity To Judge* Jeffrey L. McNairn, 2016-09-01 By the mid nineteenth century public opinion emerged as a new form of authority in Upper Canada Contemporaries came to believe that the best answer to common questions arose from deliberation among private individuals Older conceptions of government sociability and the relationship between knowledge and power were jettisoned for a new image of Upper Canada as a deliberative democracy The Capacity to Judge asks what made widespread public debate about common issues possible why it came to be seen as desirable even essential and how it was integrated into Upper Canada's constitutional and social self image Drawing on an international body of literature indebted to Jürgen Habermas and based on extensive research in period newspapers Jeffrey L. McNairn argues that voluntary associations and the press created a reading public capable of reasoning on matters of state and that the dynamics of political conflict invested that public with final authority He traces how contemporaries grappled with the consequences as they scrutinized parliamentary republican and radical options for institutionalizing public opinion The Capacity to Judge concludes with a case study of deliberative democracy in action that serves as a sustained defense of the type of intellectual history the book as a whole exemplifies

The Canadian Department of Justice and the Completion of Confederation 1867-78 Jonathan

Swainger, 2011-11-01 The federal Department of Justice was established by John A. Macdonald as part of the Conservative party's program for reform of the parliamentary system following Confederation Among other things it was charged with establishing national institutions such as the Supreme Court and the North West Mounted Police and with centralizing the penitentiary system In the process the department took on a position of primary importance in post Confederation politics This was particularly so up to 1878 when Confederation was completed Jonathan Swainger considers the growth and development of the ostensibly apolitical Department of Justice in the eleven years after the union of 1867 Drawing on legal records and other archival documents he details the complex interactions between law and politics exploring how expectations both inside and outside the legal system created an environment in which the department acted as an advisor to the government He concludes by considering the post 1878 legacy of the department's approach to governance wherein any problem legal or otherwise was made amenable to politicized solutions Unfortunately for the department and the federal government this left them ill prepared for the constitutional battles to come One crucial task was to establish responsibilities within the federal government rather than just duplicate offices which had existed prior to union Others were the establishment of national or quasi national institutions such as the Supreme Court 1875 and the North West Mounted Police

1873 the redrafting of the Governor General's instructions which was done between 1875 and 1877 and centralization of the penitentiary system completed by 1875. The Department benefited from a deeply rooted expectation that law was both apolitical and necessary. This ideology functioned in a variety of ways: it gave the Department considerable latitude for setting policy and solving problems but rationalized the appearance of politicized legal decisions. It also legitimized Department officials' claim that it was especially suited to review all legislation, advise on the royal prerogative of mercy, administer national penitentiaries and appoint judges to the bench. Ultimately the fictional notion of law as apolitical and necessary placed the Department of Justice squarely in the midst of the completion of Confederation. The Canadian Department of Justice and the Completion of Confederation will be of particular interest to students and scholars of Canadian legal and political history.

'Terror to Evil-doers' Peter Oliver, Osgoode Society for Canadian Legal History, 1998-01-01. The history of the foundations of modern carceral institutions in Ontario. Drawing on a wide range of previously unexplored primary material, Oliver provides a narrative and interpretative account of the penal system in 19th century Ontario.

Colonial Justice David Murray, 2002-01-01. This new study of early Canadian law delves into the court records of the Niagara District, one of the richest sets of records surviving from Upper Canada, to analyze the criminal justice system in the district during the first half of the 19th century.

Canadian Federalist Experiment Frederick Vaughan, 2003-05-12. He then argues that Trudeau's 1982 Charter quietly undermined the monarchic character of the constitution by introducing republican principles of government. The result has been old institutional structures at odds with the republican ambitions, leaving Canada clinging to the wreckage of the old aristocratic order while attempting to provide a new order founded on republican equality. Vaughan shows how at the time of Confederation Edward Freeman, a Cambridge historian who convinced John A. Macdonald to experiment with what no one had ever heard of before, a monarchic federation, and Jean Louis DeLolme, a popular French authority on the English constitution, helped forge a new federal constitution with a strong central government and a chief executive armed with the powers necessary to govern. Vaughan examines how these principles were undermined by the judicial activism of the Judicial Committee of the Privy Council, which paved the way for the significant expansion of judicial power under the Charter since 1982.

British Generals in the War of 1812 Wesley B. Turner, 1999-03-30. The Canadian people have faced crises of leadership but never more seriously than during the War of 1812. Despite the many studies of this turbulent time, there are still controversies over traditional issues, one being the quality of leadership on both sides.

The Lawmakers John T. Saywell, 2002-01-01. Comprehensive, ambitious and detailed. The Lawmakers will be the definitive work on the evolution of the law of Canadian federalism.
