The Complete Poems of Sir Philip Sidney Philip Sidney, 1877

The Matter of Song in Early Modern England Katherine R. Larson, 2019-08-29

Given the variety and richness of the sixteenth and seventeenth century English songscape it might seem unsurprising to suggest that early modern song needs to be considered as sung When a reader encounters a song in a sonnet sequence a romance and even a masque or a play however the tendency is to engage with it as poem rather than as musical performance Opening up the notion of song from a performance based perspective *The Matter of Song in Early Modern England* considers the implications of reading song not simply as lyric text but as an embodied and gendered musical practice Animating the traces of song preserved in physiological and philosophical commentaries singing handbooks poetic treatises and literary texts ranging from Mary Sidney Herbert's Psalms to John Milton's *Comus* the book confronts song's ephemerality its lexical and sonic capriciousness and its airy substance These features can resist critical analysis but were vital to song's affective workings in the early modern period The volume foregrounds the need to attend much more closely to the embodied and musical dimensions of literary production and circulation in sixteenth and seventeenth century England It also makes an important and timely contribution to our understanding of women's engagement with song as writers and as performers A companion recording of fourteen songs featuring Larson soprano and Lucas Harris lute brings the project's innovative methodology and central case studies to life

Symmetry and Sense Robert L. Montgomery, 1961-06-01

Few Elizabethans left the image of their personalities cut so deeply into the Renaissance imagination as did Sir Philip Sidney Widely admired in his own time Sidney must seem to the modern reader almost universally accomplished His talents as courtier diplomat soldier scholar novelist and poet are history Almost immediately after Sidney's death in battle against the Spaniards in the Low Countries the process of legend began and the legend has survived sometimes obscuring the facts The versatile Renaissance man has become in the eyes of some critics the romantic lover whose frustrations and despair found release in the confessional form of the sonnet sequence *Astrophel and Stella* and in other poems To show these poems to be consciously constructed works of art not simply passionate outbursts of romantic emotion is one aim of this study The author examines Sidney as poet and critic concentrating his study on rhetorical technique and poetic rhythm and form He shows Sidney experimenting with the symmetrical possibilities of rhythm and phrase practicing the ornateness current and acceptable in

his day He examines Sidney s comment on such a style in The Defense of Poesy and the ways in which the poet s own work agreed with or departed from his expressed opinions He also balances Sidney s poetry against the powerful tradition of Petrarchan love literature and the equally powerful Renaissance impulse to subject passion to the rule of reason Finally in an extended analysis of Astrophel and Stella he shows Sidney as the master of a plainer wittier more subtly fashioned style and a complex more dramatically immediate form What emerges from the study is not the personality of the poet but the principles of his art and the value of his achievement in the mainstream of English Renaissance verse

Philip Sidney and the Poetics of Renaissance Cosmopolitanism Robert E. Stillman,2008 Offering a fresh interpretation of Philip Sidney s Defence of Poesy Robert E Stillman s intellectually ambitious study challenges traditional scholarship by identifying the impact of his education by the followers of Philip Melanchthon the so called Philippists on his poetics piety and politics Sidney created the first Renaissance text to argue for poetry s pre eminence as an autonomous form of knowledge in the public domain and its consequent power to promote cultural reform

Sir Philip Sidney and the Circulation of Manuscripts, 1558-1640 H. R. Woudhuysen,1996-05-23 This is the first modern study of the production and circulation of manuscripts during the English Renaissance H R Woudhuysen examines the relationship between manuscript and print looks at people who lived by their pens and surveys authorial and scribal manuscripts paying particular attention to the copying of verse plays and scholarly works by hand It investigates the professional production of manuscripts for sale by scribes such as Ralph Crane and Richard Robinson The second part of the book examines Sir Philip Sydney s works in the context of Woudhuysen s research discussing all Sidney s important manuscripts and seeking to assess his part in the circulation of his works and his role in the promotion of a scribal culture A detailed examination of the manuscripts and early prints of his poems his Arcadias and of Astrophil and Stella shed new light on their composition evolution and dissemination as well as on Sidney s friends and admirers
