The Great Mathematicians of Bharat emerges as a seminal work aligning perfectly with the vision of the National Education Policy NEP 2020 which emphasizes the integration and appreciation of Indian Knowledge Systems IKS in contemporary education. This book meticulously documents the rich legacy of India's mathematical geniuses serving as a crucial resource in rekindling interest and respect for Bharat's profound mathematical traditions. It underscores the symbiotic relationship between cultural ethos and scientific inquiry, highlighting how Indian mathematicians not only contributed to the field of mathematics but also how their work was deeply interwoven with Hindu spiritual and cultural practices. By chronicling the journey from ancient sages to modern masters, the book provides a comprehensive view of the evolution of mathematical thought in Bharat, thus fulfilling NEP 2020's objective of integrating indigenous knowledge with modern academic frameworks. In doing so, it not only educates but also inspires, setting a precedent for future academic endeavours to explore and celebrate India's rich intellectual heritage.

 Poonia, 2021-08-07 Casteless India is an idea dreamt by the framers of our constitution As far fetched a dream it may seem  
 the necessity of making caste an irrelevant denominator in the social economic and political life of India cannot be overstated  
 Despite a number of reforms initiated by successive governments nationally and across states the overall efforts seem half

 system tracing it from its origin and dissecting its various facets so as to chart out a practical approach to uproot this social  
 vice from our society The objective of the book is to give a feasible solution understanding the ground realities of the issue  
 based on a broad consensus that may be favourably acceptable to all sections of the society in order to build a truly
