Dodds, Matt R. Whiles, 2019-04-03 Freshwater Ecology Third Edition covers everything from the basic chemical and physical properties of water to the advanced and unifying concepts of community ecology and ecosystem relationships found in continental waters Giving students a solid foundation for both courses and future fieldwork and updated to include key issues including how to balance ecological and human health needs GMOs molecular tools fracking and a host of other environmental issues this book is an ideal resource for both students and practitioners in ecology and related fields Winner of a 2020 Textbook Excellence Award College Texty from the Textbook and Academic Authors Association Provides an updated revision of this classic text covering both basic scientific concepts and environmental applications Includes additional biography boxes with greater cultural diversity of the featured scientists Covers expanded content on developing nations ecosystem goods and services properties of water global change impacts of fracking molecular tools for classification and identification of aquatic organisms a discussion of emergent diseases and aquatic habitats and more Roosevelt Wild Life Bulletin ... of the Roosevelt Life Forest Experiment Station of the New York College of Forestry at Syracuse University New York State College of Forestry at Syracuse University. Roosevelt Wild Life Forest Experiment Station, 1926 Journal Linnean Society of London, 1915 **TRAC 2015** Matthew J. Mandich, Sergio Gonzalez Sanchez, Giacomo Savani, Eleonora Zampieri, Thomas J. Derrick, 2016-05-16 The 2015 TRAC proceedings feature a selection of 14 papers summing up some of the key sessions presented at the conference held at the University of Leicester in March 2015 which drew over 180 delegates of 17 nationalities from a variety of universities museums and research institutions in the UK Europe and North America As this conference marked the 25th anniversary of TRAC the volume opens with a preface commemorating the last 25 years with an eye toward the future direction of both conference and community The proceedings begin with Dr Andrew Gardner's keynote paper on the topic of Debating Roman Imperialism Critique Construct Repeat This is followed by an array of papers with topics ranging in geographic scope and period from small finds in early Roman Britain to bathing practices Late Antique North Africa and from the investigation of deviant burials to the application of urban scaling theory in Roman contexts

Because of this diversity the volume is not broken into specific sections however papers with similar themes are grouped accordingly allowing the text to flow and be read as a whole The range of contributing authors is also of note as papers were submitted by PhD students post doctoral researchers and university faculty all helping to make the 25th anniversary of this series one that continues to emphasis and reflect the aims of TRAC both as a conference and as a conduit for exploring more theory driven approaches to the Roman past

Limnoecology Winfried Lampert, Ulrich Sommer, 2007-07-26 This concise readable introduction to limnology the science of investigating the structure and function of inland waters places the subject in the context of modern ecology Unlike most ecological textbooks which use examples taken almost exclusively from terrestrial systems this book integrates the fields of limnology and ecology by presenting empirical data drawn entirely from freshwater ecosystems in order to advance ecological theories limnoecology This second edition builds upon the strengths of the first with the structure of the book following the same hierarchical concept of ecology from habitat properties individuals populations coupled populations and communities to ecosystems However it has been thoroughly revised throughout to incorporate findings from new technologies and methods notably the rapid development of molecular genetic methods and stable isotope techniques that have allowed a rapid and ongoing development of the field There is a new emphasis on food webs species diversity and ecosystem functioning climate change and conservation management Key ecological questions are examined in the light of the latest experimental evidence Throughout the text evolutionary theory is applied to an understanding of freshwater ecosystems thereby filling a niche between traditional limnology and evolutionary ecology This accessible text is suitable for both undergraduate and graduate students taking courses in limnology freshwater ecology and aquatic biology as well as the many professional limnologists ecologists and conservation biologists requiring a concise but authoritative overview of the topic

Khirbet Qumran and Ain-Feshkha III A (in English translation) Jean-Baptiste Humbert, 2023-11-13 For 60 years Qumran research has been focused on epigraphy exegesis and the historical sources of the Dead Sea Scrolls The manuscripts are now published and accessible and research is turning in a positive way to the archaeology of the site and its context The time has come to provide researchers with a complete documentation The excavator Roland de Vaux had given preliminary reports and a valuable interpretation made in the immediate aftermath of the excavations Since considerable progress has been made in the archeology of Hellenistic and Roman Palestine however Qumran has to be reassessed and the interpretation objectively verified Volume IIIA presents an up to date archaeological reconsideration a shorter and more precise chronology in which the earthquake of 31 BC is deleted the concept of an Essene community is challenged owing to the lack of a suitable infrastructure the cemetery itself is connected with a Jewish diaspora scattered around the Dead Sea Other facilities strengthen the Jewish character of the site however The function of Qumran fits better with the rites of a pilgrimage on the occasion of the festivals of Passover and Pentecost In the second part the peripheral Essene facilities expanded around an earlier Hellenistic center are analyzed and described The essay seeks to outline their internal consistency and to determine their function The restoration of a stratigraphy by cross checking the excavation archives leads to a redistribution of pottery in four levels in a more precise chronology The reconsideration makes use of anthropology which opens up the archaeological field and throws additional light on the manuscripts
