Echoes from Dharamsala Keila Diehl, 2002-06-03 In *Echoes from Dharamsala* Keila Diehl uses music to understand the experiences of Tibetans living in Dharamsala, a town in the Indian Himalayas that for more than forty years has been home to Tibet's government in exile. The Dalai Lama's presence lends Dharamsala's Tibetans a feeling of being in place, but at the same time they have physically and psychologically constructed Dharamsala as not Tibet, as a temporary resting place to which many are unable or unwilling to become attached. Not surprisingly, this community struggles with notions of home, displacement, ethnic identity and assimilation. Diehl's ethnography explores the contradictory realities of cultural homogenization, hybridity and concern about ethnic purity as they are negotiated in the everyday lives of individuals. In this way, she complicates explanations of culture change provided by the popular idea of global flow. Diehl's accessible, absorbing narrative argues that the exiles' focus on cultural preservation while crucial has contributed to the development of essentialist ideas of what is truly Tibetan. As a result, foreign or modern practices that have gained deep relevance for Tibetan refugees have been devalued. Diehl scrutinizes this tension in her discussion of the refugees' enthusiasm for songs from blockbuster Hindi films, the popularity of Western rock and roll among Tibetan youth and the emergence of a new genre of modern Tibetan music. Diehl's insight into the soundscape of Dharamsala is enriched by her own experiences as the keyboard player for a Tibetan refugee rock group called the Yak Band. Her groundbreaking study reveals the importance of music as a site where official and personal old and new representations of Tibetan culture meet and where different notions of Tibetan-ness are being imagined, performed and debated.

Resources in Education ,1995 **Far Out** Mark Liechty,2017-02-21 Far Out charts the history of Western countercultural longing for Nepal that made the country and Kathmandu in particular a premier tourist destination in the twentieth century Anthropologist and historian Mark Liechty describes three distinct phases the immediate post war era when the country provided a Raj like throwback experience for rich foreigners mainly Americans Nepal's emergence as the most exotic outpost of hippie counterculture in the 1960s and early 70s and finally the Nepali state's rebranding of itself as an adventure destination from the 1970s on Liechty is attuned to how the dynamics of mid twentieth century globalizationthe Cold War and shifting international relations modernization and development ideologies the rise of consumerist middle classes increased mobility and the birth of mass tourism and emerging global youth counterculturesdrew Nepal into the web of geopolitical economic and sociocultural transformations that shaped the modern world But Liechty doesn't want to tell the story of tourism as something that just happened to Nepalis He shows how Western projections of Nepal as an isolated place inspired creative Nepali enterprises and paradoxically gave locals the opportunity to participate in the highly coveted global economy The result is a readable cultural history of a place that has been in many ways defined by a sometimes bizarre cultural encounter The author's lifelong interest in Nepal and his almost twenty five years of research make his account both sophisticated and empathicbut not without a touch of humor Backpacker ,2001-03 Backpacker brings the outdoors

imagined Kenneth Conboy and James Morrison reveal how America's Central Intelligence Agency encouraged Tibet's revolt against China and eventually came to control its fledgling resistance movement While the CIA's presence in Tibet has been alluded to in other works the authors provide the first comprehensive as well as most compelling account of this little known agency enterprise The CIA's Secret War in Tibet takes readers from training camps in the Colorado Rockies to the scene of clandestine operations in the Himalayas chronicling the agency's help in securing the Dalai Lama's safe passage to India and subsequent initiation of one of the most remote covert campaigns of the Cold War Establishing a rebel army in the northern Nepali kingdom of Mustang and a para commando force in India designed to operate behind Chinese lines Conboy and Morrison provide previously unreported details about secret missions undertaken in extraordinarily harsh conditions Their book greatly expands on previous memoirs by CIA officials by putting virtually every major agency participant on record with details of clandestine operations It also calls as witnesses the people who managed and fought in the program including Tibetan and Nepalese agents Indian intelligence officers and even mission aircrews Conboy and Morrison take pains to tell the story from all perspectives particularly that of the former Tibetan guerrillas many of whom have gone on record here for the first time The authors also tell how Tibet led America and India to become secret partners over the course of several presidential administrations and cite dozens of Indian and Tibetan intelligence documents directly related to these covert operations Ultimately they are persuasive that the Himalayan operations were far more successful as a proving ground for CIA agents who were later reassigned to southeast Asia than as a staging ground for armed rebellion As the movement for Tibetan liberation continues to attract international support Tibet's status remains a contentious issue in both Washington and Beijing This book takes readers inside a covert war fought with Tibetan blood and U S sponsorship and allows us to better understand the true nature of that controversy
