Stehlin,Kevin Ward,2020-11-30 This title takes the broadest possible scope to interrogate the emergence of platform urbanism examining how it transforms urban infrastructure governance knowledge production and everyday life and brings together leading scholars and early career researchers from across five continents and multiple disciplines The volume advances theoretical debates at the leading edge of the intersection between urbanism governance and the digital economy by drawing on a range of empirically detailed

cases from which to theorize the multiplicity of forms that platform urbanism takes It draws international comparisons between urban platforms across sites with attention to the leading edges of theory and practice and explores the potential for a renewal of civic life engagement and participatory governance through platform cooperativism and related movements A breadth of tangible and diverse examples of platform urbanism provides critical insights to scholars examining the interface of digital technologies and urban infrastructure urban governance urban knowledge production and everyday urban life The book will be invaluable on a range of undergraduate and postgraduate courses as well as for academics and researchers in these fields including anthropology geography innovation studies politics public policy science and technology studies sociology sustainable development urban planning and urban studies It will also appeal to an engaged academia adjacent readership including city and regional planners policymakers and third sector researchers in the realms of citizen engagement industrial strategy regeneration sustainable development and transport **The Future of Microfinance** Ira W. Lieberman,Paul DiLeo,Todd A. Watkins,2020-06-30 A major source of financing for the poor and no longer a niche industryOver the past four decades microfinance the provision of loans savings and insurance to small businesses and entrepreneurs shut out of traditional capital markets has grown from a niche service in Bangladesh and a few other countries to a significant global source of financing Some 200 million people globally now receive support from microfinance institutions with most of the recipients in the developing world In the beginning much of the microfinance industry was managed by non governmental organizations but today the majority of these institutions are commercial and regulated by governments and they provide safe places for the poor to save as well as offering much needed capital and other financial services Now out of infancy the microfinance industry faces major challenges including its ability to deal with mobile banking and other technology and concerns that some markets are now over saturated with microfinance How the industry deals with these and other challenges will determine whether it will continue to grow or will be subsumed within the larger global financial sector This book is based on the results of a workshop at Lehigh University among thirty four leaders in the industry The editors working with contributions from more than a dozen leading authorities in the field tell the important story of how microfinance developed how it has met the needs of hundreds of millions of people and they address key questions about how it can continue to meet those needs in the future The Nature of Data Jenny Goldstein,Eric Nost,2022-10 When we look at some of the most pressing issues in environmental politics today it is hard to avoid data technologies Big data artificial intelligence and data dashboards all promise revolutionary advances in the speed and scale at which governments corporations conservationists and even individuals can respond to environmental challenges By bringing together scholars from geography anthropology science and technology studies and ecology The Nature of Data explores how the digital realm is a significant site in which environmental politics are waged This collection as a whole makes the argument that we cannot fully understand the current conjuncture in critical global environmental politics without understanding the role of data

platforms devices standards and institutions In particular The Nature of Data addresses the contested practices of making and maintaining data infrastructure the imaginaries produced by data infrastructures the relations between state and civil society that data infrastructure reworks and the conditions under which technology can further socio ecological justice instead of re entrenching state and capitalist power This innovative volume presents some of the first research in this new but rapidly growing subfield that addresses the role of data infrastructures in critical environmental politics   **Recent Advances in 3D Geoinformation Science** Thomas H. Kolbe,Andreas Donaubauer,Christof Beil,2024-02-20 The book includes the contributions to the international conference 18th 3D GeoInfo The papers published in the book were selected through a double blind review process 3D GeoInfo has been the forum joining researchers professionals software developers and data providers designing and developing innovative concepts tools and application related to 3D geo data processing modeling management analytics and simulation A big focus is on topics related to data modeling for 3D city and landscape models as well as their many and diverse applications This conference series is very successfully running since 2006 and has been hosted by countries in Europe Asia Africa North America and Australia In the period 2006 to 2017 the proceedings has been published by Springer in this series with Thomas H Kolbe being the editor of the 2010 edition of the conference proceedings 18th 3DGeoInfo was organized by Technical University of Munich in cooperation with the German Society for Photogrammetry Remote Sensing and Geoinformation DGPF the local associations Runder Tisch GIS e V Round Table GIS and Leonhard Obermeyer Center TUM Center of Digital Methods for the Built Environment and the City of Munich The international program committee consisted of committee members of previous 3D GeoInfo conferences and further leading scientists in the field of 3D Geoinformation Science   Developing a Digital National Library for Undergraduate Science, Mathematics, Engineering and Technology Education National Research Council,Division of Behavioral and Social Sciences and Education,Board on Science Education,Steering Committee for Developing a Digital National Library for Undergraduate Science, Mathematics, Engineering, and Technology Education,1998-01-29 In 1996 the National Science Foundation NSF released a report about ways to improve undergraduate science mathematics engineering and technology SME T education One recommendation called for establishing a digital library similar to those that are being constructed for many research communities that would make available electronically a wide variety of materials for improving teaching and learning of SME T The NSF asked the National Research Council to examine the feasibility of and issues associated with establishing such a digital national library In response an NRC steering committee commissioned a series of papers and convened a workshop to consider these issues This resulting book delineates the issues that should be considered and provides recommendations to resolve them prior to committing funds   Financing Climate Futures Rethinking Infrastructure OECD,The World Bank,United Nations Environment Programme,2018-11-28 This report is a joint effort by the OECD UN Environment and the World Bank Group supported by the German Federal Ministry for the Environment Nature Conservation and Nuclear Safety
