Social Security For Excluded Majority Case Studies Of Developing Countries:

Social Security for the Excluded Majority Wouter van Ginneken, 1999 The large majority of workers in developing countries are excluded from social security protection Social Security for the Excluded Majority examines this problem in Benin China El Salvador India and the United Republic of Tanzania This book pleads for a participatory approach to the extension of social security and explores ways in which governments and organizations can come together to create practical workable policies to bring social security protection to all Through a series of detailed case studies compiled by an international array of policy experts this book looks closely at the workings of self financed schemes for informal workers that emerged in the 1990s and highlights the schemes that have been most beneficial It focuses on how NGOs cooperatives and other social organizations have been able to develop institutions and policies more in line with the requirements and contributory capacity of the informal sector The authors evaluate various approaches to the extension of formal sector social insurance to informal sector workers including the self employed In addition they explore how social assistance programs although often requiring sophisticated administration can help ensure that benefits reach the population most in need such as children the disabled and the elderly

Recent Health Policy Innovations in Social Security Xenia

Scheil-Adlung, 2018-04-24 The debate about health care reform has gone on for many years The debate has generated often innovative ideas for reform that transcend national boundaries For example proposals have been made for an extension of health insurance with a framework of social protection progressive development of funding methods controls on expenditure bringing benefits into line with what is actually needed and the application of technological advances The book concentrates on health insurance policy innovations in selected countries in Africa the Americas Asia and Europe In addition this book addresses recent institutional economic findings with regard to application of information technology in health insurance systems Topics discussed include new approaches in extending coverage in a health insurance system confronting resource scarcity innovative strategies refining benefits to meet current needs new institutional and administrative frameworks and transformation through information technology systems Many of the innovations presented here have already been integrated into existing reforms and the authors refer to concrete developments in individual countries and regions This book presents those important innovations to social health insurance systems in industrialized and developing countries that have been brought forward in recent years and as far as possible already evaluated In doing so the intention is to show developments that are valid for more than one country and could have long term impact on health insurance systems This book is intended to promote deeper exchanges of experience between differing regions countries and health insurance systems In this way it will stimulate ideas for politicians and practitioners scientists and other experts

World Labour Report 2000 International Labour Office, 2000 Increasing globalisation and trade liberalisation are creating greater insecurity for many income earners This study examines the vital role played by social protection and health care in the event of old age

incapacity for work through sickness or accident bearing and raising children and unemployment The report discusses the effects of rising unemployment and underemployment and of labour market developments which have exposed a growing number of workers to low pay and precarious conditions Factors such as changing family structures and demographic trends are considered The positive impact of social protection on the economy has often been neglected the report says and can be enhanced by better co ordination between social protection labour market and anti poverty policies **Social Protection**

Globalised Jos Berghman,2005 This book contributes to the growing amount of literature that is concerned with the relationship between globalisation and social security The aim of this work is first to clarify the impact of the globalisation process on social security systems and second to formulate substantive and technical proposals for the adaptation of existing social security schemes to an altered socio economic context and for the elaboration of international legal instruments aimed at an effective substantive and procedural protection of social security as a fundamental right The report is divided into three parts The first part is concerned with the social impact of globalisation and its consequences for social security systems in the high income economies The first article of this section considers the nature of globalisation as well as its social impact It spells out some fundamental challenges facing social security systems The following article elaborates further on one specific challenge that is the need for social security to adapt to the increased territorial mobility of workers The second part looks at the effects of globalisation on social security in relation to middle and low income countries and examines the extent to which existing arrangements in these countries are able to provide adequate income protection to me majority of the population For the group of middle income countries the relevance of globalisation for the privatisation of pension systems is analysed as well as the consequences with respect to their main social functions i e the provision of old age income security and income redistribution This is done so through a comparative analysis of Latin American countries that have implemented pension policy reform The following two articles consider the experience of social security systems in low income countries In the first article the impact and challenges of globalisation for existing formal and informal social security arrangements in low income countries are explored and options are suggested for alternative approaches to social security provision that are better suited to the circumstances of low income countries The arguments have been illustrated with evidence from Cote d Ivoire a country with a socio economic situation and social security framework that is typical for the majority of low income countries The second article discusses in greater depth the link between informal economic and social security in Sub Saharan Africa Finally the third part calls for a global approach to social security To this end the first article in this section outlines a possible strategy for a generalised social protection at the global level based on the human damage theory while the last chapter of this work is concerned with the international legal instruments most appropriate for a better substantive and procedural protection of social security as a basic human right **Growing Old in Cameroon** Charles Che

Fonchingong,2013-12-11 For the governments of many developing African nations providing income security for the older

population is difficult particularly in Cameroon This book uncovers the complex problem of pension deficits and difficulties providing welfare and other forms of social assistance A vast majority of older people in Cameroon remain unassisted and battling to survive with increasingly fragmented family and community oriented forms of support As the older population increases fundamental concerns remain Is care provided only by family members sustainable How does gender factor into this situation and who bears the brunt of these problems Borrowing from social capital theory this book discusses how older people struggle to find new forms of social protection This book articulates the view that older people display remarkable courage resilience and coping strategies which make them not a burden to society but rather key players in the development process It proposes achievable policy options that can make a difference in the lives of Cameroon s older citizens **Social**

Policy and Poverty in East Asia James Midgley,Kwong Leung Tang,2009-09-11 This book looks at the role of social policy and particularly social security in addressing the ongoing challenge of poverty in East Asia despite the region s spectacular experience of economic growth in recent decades The East Asian miracle resulted over the last four decades in a transformation of the region s traditional agrarian economies and significant increases in standards of living for many ordinary people Even though it was given little attention poverty has remained an ongoing problem The problem became particularly evident however with the Asian financial crisis of 1997 when many low income and middle class workers became unemployed As a result of this crisis the need for effective social policies and social security programs were recognized The idea that economic growth would solve the problem of poverty was increasingly challenged Even in China today where rapid growth has created new employment opportunities and the promise of prosperity for many the government has recognized that the problem of poverty cannot be addressed only through economic growth but that comprehensive social policies must be formulated and this includes the development of an effective security system *Understanding Social Security (Second Edition)* Jane Millar,2009-02-02 The second edition of this important text reviews policy developments since 1997 The chapters have been extensively updated and there are new chapters on social security reform inequalities and social security and the new welfare market **Forgotten People: Poverty, Risk and Social Security in Indonesia** Gerben

Nooteboom,2014-11-28 In *Forgotten People* Gerben Nooteboom describes and analyses the livelihoods and social security of peasants and migrant Madurese It offers a new way to categorise and analyse livelihood security of marginal people in Indonesia by using the concept of style *Cash Transfers and Basic Social Protection* Moritz von Gliszczynski,2015-05-26 *Cash Transfers and Basic Social Protection* offers a ground breaking analysis of the discourses that facilitated the rise of cash transfers as instruments of development policy since the 1990s The author gives a detailed overview of the history of social protection and identifies the factors that made cash transfers legitimate policy **Taking Well-Being and Quality of Life for Granted?** Isabella Bertmann,2017-10-27 Isabella Bertmann investigates the connection between disability poverty and quality of life and how social protection measures can influence this relationship The focus of this study is on South Africa On

the basis of qualitative interviews conducted with individuals affected as well as with local disability and social policy professionals the author provides enlightening insights into the contemporary discourse on inclusive social protection systems By combining theoretical considerations on well being and quality of life based on the Capability Approach with her empirical data she opens new perspectives on the multidimensionality of poverty social inclusion and self determined living

Informal Institutions and Citizenship in Rural Africa Lauren M. MacLean, 2010-05-24 This book challenges previous assumptions about institutions social capital and the nature of the African state by investigating the history of political and economic change in villages on either side of the Ghana Cote d'Ivoire border Prior to European colonial rule these Akan villages had very similar political and cultural institutions By the late 1990s however Lauren M MacLean found puzzling differences in the informal institutions of reciprocity and indigenous notions of citizenship MacLean argues that divergent histories of state formation not only shape how villagers help each other but also influence how local groups and communities define citizenship and then choose to engage with the state on an everyday basis She examines the historical construction of the state role in mediating risk at the local level across three policy areas political administration social service delivery and agriculture

Social Security, the Economy and Development J. Midgley, K. Tang, 2008-04-30 This book explores the complex relationship between social security and economic development arguing that social security contributes positively to economic development by promoting social investments that not only foster economic growth but enhance social welfare for all The contributors analyse the various forms of social security and through comprehensive analysis of country experiences demonstrates that the relationship between social security and economic development defies the simplistic interpretations currently popular in literature on the subject A variety of country case studies are explored including Britain Chile China India Korea Norway Singapore South Africa and the United States This topical volume is a vital companion for all interested in the dynamics of the relationship between social security and the economy

The Transnationalized Social Question Thomas Faist, 2019 The social question is back Yet today's social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the borders of national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class

differences dominated conflicts While class has always been criss crossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question **Understanding Social**

Townsend,2015-12-11 This book builds the case for a comprehensive social security system to be developed in all countries to eliminate desperate conditions of poverty reverse growing inequality and sustain economic growth It gives the history of the rich countries in meeting poverty and shows how the strategies in the poor countries can be greatly improved Pensions in

Development Roger Charlton,Roddy McKinnon,2018-03-29 This title was first published in 2001 Challenging conventional approaches to the delivery of sustainable social protection to the elderly in developing countries DCs and assessing their implications this work discusses the appropriateness of the public management of funded systems in DCs with relatively large formal sectors The combination of social assistance approaches to social protection for the elderly facilitates the formation of an original unbiased pensions in development approach Arguing for expeditious implementation of non contributory tax or aid financed universal old age pensions provision in all DCs and advocating industry flexibility and inclusivity the book provides a treatment of a growing issue in worldwide development Social Reinsurance David M.

Dror,Alexander S. Preker,2002-01-01 Annotation This volume views community based microinsurance as an incremental first step to improved financial protection and better access to health services for the poor While community based financing can be structured in various ways this volume focuses on reinsurance as a mechanism for improving micro level health insurance

units It outlines strategies and policies that can be applied by countries and donors to improve access to health care services

Institutional Change in Southeast Asia Fredrik Sjöholm, Jose L. Tongzon, 2005 Institutional Change in Southeast Asia examines the institutional changes taking place in and challenges facing the region since 1997 The book focuses on determinants to the adjustments and on implementations of the reforms It also describes various differences in the reform process between countries in the region Southeast Asia's economic development over the last decades has been impressive Most of the region achieved consistently high growth rates accompanied by significant structural transformation and industrialization poverty alleviation and improvements in their overall standard of living as indicated by such social indicators as greater longevity more widespread delivery of basic education and lower infant mortality rates However the crisis that struck Southeast Asia in 1997 had severe economic social and political consequences in the region It also threw into doubt the future economic prosperity of the countries in Southeast Asia and raised intriguing questions about the quality of their institutions and their approach to economic development Sjöholm and Tongzon argue that the economies of Southeast Asia need to reform their institutions if the previous rapid development is to continue The institutional weaknesses have been addressed to different degrees and with different success in the affected countries Against the backdrop of Southeast Asia's importance in the world economy it is hardly possible to overestimate the need to understand this process of change

Ropewalking and Safety Nets Juliette Koning, Frans Hüsken, 2006-12-01 This volume discusses how national and local social security in Indonesia has changed over the past decades and in particular during the economic and political crisis of the late 20th and early 21st century The contributions based on case studies from urban and rural Java focus on the evolution of existing formal and informal institutions providing social security and at the ways in which people create access to such institutions and develop strategies to handle insecurities The main conclusion is that informal institutions providing support to those who need it more and more tend to exclude the poor and weak sections of society and that government policy in this field is only beginning to address these major social issues

Global Marketplace for Private Health Insurance Alexander S. Preker, Peter Zweifel, Onno P. Schellekens, 2009-11-18 Financial protection against the cost of illness and inclusion of vulnerable groups will require better mobilization and use of private means Private voluntary health insurance already plays an important role in mobilizing additional resources to the health sector and protecting against the catastrophic cost of illness in some countries This review explores the context under which private voluntary health insurance could contribute to an improvement in the sustainability of the health sector and financial protection in other countries
