Social Trust And The Management Of Risk:

Social Trust and the Management of Risk George Cvetkovich, 2013-12-16 Social trust is a crucial issue to many aspects of modern society Policy makers continually aspire to winning it and corporations frequently run the risk of losing it The trust deficit raises vital questions and problems to which until recently there have been few answers or solutions Experts from both sides of the Atlantic explore the importance for trust of various influences from individual perceptions to organizational systems and consider the conditions involved in building or undermining trust Several authors examine practical hazard management issues including medical vaccination programmes and popular participation in pollution control and waste management as strategies for enhancing social trust This book provides insightful analysis for researchers and students of environmental and social sciences and is essential reading for those engaged in risk management in both the public and private sectors

Social Trust and the Management of Threatened and Endangered Species George Cvetkovich, 2002 Social trust the willingness to rely on those with formal responsibility to develop policies and make decisions facilitates effective management of environmental issues including wildlife management National polls suggest that the public trusts government agencies to solve environmental problems yet such trust is low or non existent in areas of controversy such as the protection of threatened and endangered species This study explored the role of social trust in understanding views of threatened and endangered species management in the National Forests of southern California The 127 participants surveyed lived in or near a National Forest or were recreational and or other users of the National Forest The results suggest that trust in Forest Service management of wildlife relates to perceived similarity between individual values regarding species protection and Forest Service values Participants who believe the Forest Service shares their values have a high trust those who believe the Forest Service does not share their values have a low trust The most trusting tend to believe that species protection should be the primary principle guiding forest management and that the Forest Service consistently operates according to these principles Those low in trust believe forest management should be based on the fulfillment of human needs they perceive that the Forest Service operates inconsistently according to their values The study suggests that social trust is a significant predictor of approval of species management practices

Social Trust and Life Insurance Louise Morris, 2011-05-25 This book investigates the role of incomplete knowledge social trust and risk perceptions in influencing acceptance of the perceived risks related to insurers using genetic test results In addition the author identifies and explains the factors and conditions that affect this risk acceptance pattern In order to do so both survey methods and semi structured interviews are employed A review of the necessity of life insurance companies to acquire genetic test results is undertaken followed by an analysis of the speculated consequences of such usage for society Management of the risks related to insurers using genetic test results is examined and the problems and difficulties inherent in the risk management strategies suggested and enforced are explored This is followed by a comparison between the

societal risks produced by insurers using genetic test results and the risks theorised as pertaining to a risk society Beck 1992 and a runaway world Giddens 1990 1999

General Technical Report NRS-P, 2006 **Proceedings of the 2006 Northeastern Recreation Research Symposium**, 2007 Risk Conundrums Roger E. Kasperson, 2017-07-14 A risk conundrum can be viewed as a risk that poses major issues in assessment and whose management is not easily engaged. Such perplexing problems can either paralyze or badly delay risk analysis and directions for progression. Rather than simply focusing on the progress in risk analysis that has already been made, it is crucial to consider what has been learnt about these seemingly unmanageable problems and how best to move forward. *Risk Conundrums* seeks to answer this question by bringing together a range of key thinkers in the field to explore key issues such as risk communication, uncertainty, social trust, indicators and metrics, and risk management drawing upon case study examples including natural disasters, terrorism and energy transitions. The initial chapters address risk conundrums, their properties and the challenges they pose. The book then turns to a greater emphasis on systemic and regional risk conundrums. Finally, it considers how risk management can be changed to address these unsolvable conundrums. Alternative pathways are defined and scrutinized and predictions for future developments set out. This book will be of great interest to students and scholars of risk governance, environmental policy and sustainable development.

The Social Amplification of Risk Nick Pidgeon, Roger E. Kasperson, Paul Slovic, 2003-07-10 This volume, edited by three of the world's leading analysts of risk and its communication, brings together contributions from a group of international experts working in the field of risk perception and risk communication. Key conceptual issues are discussed as well as a range of recent case studies spanning BSE and food safety, AIDS, HIV, nuclear power, child protection, Y2K, electromagnetic fields and waste incineration that take forward the state-of-the-art in risk amplification theory. The volume also draws attention to lessons for public policy, risk management and risk communication practice.

The Social Contours of Risk Roger E. Kasperson, Jeanne Kasperson, 2022-02-15 We live in a risk society where the identification, distribution and management of risks from new technology, environmental factors or other sources are crucial to our

individual and social existence In *The Social Contours of Risk* Volumes 1 and 2 two of the world's leading and most influential analysts of the social dimensions of risk bring together their most important contributions to this fundamental and wide ranging field Volume II centres on the analysis and management of risk in society in international business and multinationals and globally The acceptability of risk to an individual depends on the context whether the larger society or in for example a corporate framework Their work clarifies the structures and processes for managing risks in the private sector and the factors that produce or impede effective decisions The authors demonstrate that corporate culture is crucial in determining risk management They analyse the transfer of corporate risk management systems from industrial to developing countries and how globalization is spreading and creating new kinds of risk the combination of traditional and modern hazards presented by climate change technology transfer and economic growth They describe the new priorities and capacities needed to deal with these enhanced vulnerabilities around the globe *The Risk Society Revisited* Eugene Rosa, Ortwin Renn, Aaron McCright, 2014 Risk is a part of life How we handle uncertainty and deal with potential threats influence decision making throughout our lives In *The Risk Society Revisited* Eugene A Rosa Ortwin Renn and Aaron M McCright offer the first book to present an integrated theory of risk and governance The authors examine our sociological understanding of risk and how we reconcile modern human conditions with our handling of risk in our quest for improved quality of life They build a new framework for understanding risk one that provides an innovative connection between social theory and the governance of technological and environmental risks and the sociopolitical challenges they pose for a sustainable future Showing how our consciousness affects risk in the decisions we make as individuals and as members of a democratic society *The Risk Society Revisited* makes an important contribution to the literature of risk research
