Social And Sexual Revolution Essays On Marx And Reich:

Social and Sexual Revolution Bertell Ollman, 1978 The author of *Alienation* extends his original approach to social theory in this discussion of Marx's view of socialism class analysis and the problem of socialist consciousness and Wilhelm Reich's contributions to the psychology of social change **Recreating Sexual Politics (Routledge Revivals)** Victor Seidler, 2009-12-15 This thought provoking book first published in 1991 examines sexual politics in a world which is being radically changed by the challenges of feminism Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity Seidler's stimulating and original analysis of social and political theory connects personally to everyday issues in people's lives It reflects the growing importance of sexual and personal politics within contemporary politics and culture and demonstrates clearly the challenge that feminism brings to our inherited forms of morality politics and sexuality **Love, Heterosexuality and Society** Paul Johnson, 2007-04-11 Heterosexuality is a largely silent set of practices and identities it is assumed to be everywhere and yet often remains unnamed and unexplored Despite recent changes in the theoretical understanding and representation of sexuality heterosexuality continues to be socially normative Forging a new agenda for the study of heterosexuality this in depth volume the first research monograph to focus on heterosexuality and society presents an empirical study of the construction negotiation and enactment of heterosexual sexuality Using detailed interview data it investigates how heterosexuality as both an identity and a set of practices is accomplished through love relationships Rather than assuming that romantic love is an outcome or expression of a pre defined sexuality Johnson explores how sexuality is brought to life through love Situated in the ongoing theoretical debates concerning the relationship between gender and sexuality Paul Johnson's book shows how ways of loving are interwoven with the construction practice regulation and government of heterosexuality Excellently written this important book also looks at gender in society and explores such areas as heterosexual subjectivities and the borders of desire As such the research it contains will be valuable for all students of sociology and gender studies **The Vocation of Reason** Hall Thomas Wilson, 2003-12-01 This book addresses and at the same time reflects the impact of Max Weber on both the social sciences and on critical theory's critique of the social sciences Weber's conception of vocation is a guiding thread unifying concerns about the nature scope and limits of theoretical thinking among social scientists whether supportive or critical of Weber Not surprisingly the source of many of these concerns whether intended or unintended biographical or situational is the ambiguous legacy of Weber himself Wilson's interrogation of Weber's thought in articles and essays over the past 30 years supplemented by Kemple's insights makes a strong case for the claim that we do indeed live in the age of Weber **Marx, Hayek, and Utopia** Chris Matthew Sciabarra, 1995-01-01 Develops a critique of utopianism through a comparison of the works of Karl Marx and F A Hayek challenging conventional views of both Marxian and Hayekian thought **From Marx to Mises** David Ramsay Steele, 2013-12-15 In 1920 Ludwig von Mises proclaimed that

all attempts to establish socialism would come to grief for reasons of informational efficiency At first socialists and economists took Mises s argument seriously but by the end of the Second World War a consensus prevailed that Mises had been discredited More recently that consensus has been rapidly reversed it is now widely agreed that Mises was right Yet the momentous implications of the Mises argument for economics politics culture and philosophy remain largely unexplored From Marx to Mises is a clear penetrating exposition of the economic calculation debate and a scrutiny of some of the broader issues it raises

Contested Capital Maryam Aslany,2020-12-03 The expansion and transformation of Asian economies is producing class structures roles and identities that could not easily be predicted from other times and places The industrialisation of the countryside in particular generates new rural middle classes which straddle the worlds of agriculture and industry in complex ways Their class position is improvised on the basis of numerous influences and opportunities and is in constant evolution Enormous though its total population is meanwhile the rural middle class remains invisible to most scholars and policymakers Contested Capital is the first major work to shed light on an emerging transnational class comprised of many hundreds of millions of people In India the middle class has become one of the key categories of economic analysis and developmental forecasting The discussion suffers from one major oversight it assumes that the middle class resides uniquely in the cities As this book demonstrates however more than a third of India s middle class is rural and 17 per cent of rural households belong to the middle class The book brings this vast and dynamic population into view so confronting some of the most crucial neglected questions of the contemporary global economy

Space, Difference, Everyday Life Kanishka Goonewardena,Stefan Kipfer,Richard Milgrom,Christian Schmid,2008-02-19 In the past fifteen years Henri Lefebvre s reputation has catapulted into the stratosphere and he is now considered an equal to some of the greats of European social theory Bourdieu Deleuze Harvey In particular his work has revitalized urban studies geography and planning via concepts like the social production of space the right to the city everyday life and global urbanization Lefebvre s massive body of work has generated two main schools of thought one that is political economic and another that is more culturally oriented and poststructuralist in tone Space Difference and Everyday Life merges these two schools of thought into a unified Lefebvrian approach to contemporary urban issues and the nature of our spatialized social structures

Total Freedom Chris Matthew Sciabarra,2000 Building upon his previous books about Marx Hayek and Rand Total Freedom completes what Lingua Franca has called Sciabarra s epic scholarly quest to reclaim dialectics usually associated with the Marxian left as a methodology that can revivify libertarian thought Part One surveys the history of dialectics from the ancient Greeks through the Austrian school of economics Part Two investigates in detail the work of Murray Rothbard as a leading modern libertarian in whose thought Sciabarra finds both dialectical and nondialectical elements Ultimately Sciabarra aims for a dialectical libertarian synthesis highlighting the need not sufficiently recognized in liberalism to think of the totality of interconnections in a dynamic system as the way to ensure human freedom

while avoiding totalitarianism such as resulted from Marxism Appearance and Reality in Politics W. E.

Connolly,1981-04-02 **Dreams in Chinese Fiction** Johannes D. Kaminski,2024-06-07 This book considers the contemporary political formula of the Chinese Dream in the light of the treatment of dreams in Chinese literary history since antiquity Sinic literary and philosophical texts document an extensive spectrum of dream possibilities starting with Zhuangzi's eminent butterfly dream an early example of the inversion of the dreamer's reality through to confusing visions of the spiritual realm In classical dramas novels and ghost stories dreams see the earthly realm enter into conflict with higher realms of existence They indulge the dreamer's quest for sensual pleasures but then spiritual beings relentlessly harvest the dreamer's life energy Dreams promise spiritual enlightenment only to abandon the dreamer in a state of utter confusion In the early twentieth century traditional dream knowledge is abandoned in favour of Freudian episodes of sexual repression In this context the collective national dream emerges as an unexpected vehicle of the pained individual's hope for national rejuvenation **The Nation in the Global Era** Jerry Harris,2009 The Nation in the Global Era Conflict and Transformation makes available a unique blend of multi disciplinary research covering topics that present the most current thinking on key developments concerning globalization Its main focus covers questions of transnational class and identity in relationship to the nation state **Women in Developing Countries** Kathleen A Staudt,Jane S Jaquette,2013-05-13 Here is an insightful volume on the integration of women in the modernization process of developing countries with research studies on women and development in Guatemala Tanzania Indonesia and several other countries Drawing from theory and practice authorities examine how development in any kind of economy marginalizes women illustrate the existence of a feminist awareness among impoverished rural women demonstrate the importance of understanding the policy and program implementation institutions within which any transition toward more women sensitive change is to occur and suggest the kind of research that would be useful and credible to policymakers Each of the controversial chapters reflects a new phase in women and development research and each is a reminder that the fundamental issue women's subordination remains key to theory and practice in development *Globalization and Culture* John Tomlinson,2013-07-03 Globalization is now widely discussed but the debates often remain locked within particular disciplinary discourses This book brings together for the first time a social theory and cultural studies approach to the understanding of globalization The book starts with an analysis of the relationship between the globalization process and contemporary culture change and goes on to relate this to debates about social and cultural modernity At the heart of the book is a far reaching analysis of the complex ambiguous lived experience of global modernity Tomlinson argues that we can now see a general pattern of the dissolution between cultural experience and territorial location The uneven nature of this experience is discussed in relation to first and third world societies along with arguments about the hybridization of cultures and special role of communications and media technologies in this process of deterritorialization Globalization and Culture concludes with a discussion of the cultural politics of cosmopolitanism

Accessibly written this book will be of interest to second year undergraduates and above in sociology media studies cultural and communication studies and anyone interested in globalization
