pottery Characterising that experience of Etruscan pottery is the concern of this book More specifically this volume aims to unpick both the physical encounter between vessel and hand and the emotional interaction between the user of a pot and the images inscribed upon its surface **The ^AOxford History of the Archaic Greek World** Paul Cartledge,Paul

Christesen,2025-06-20 The ancient Greek world consisted of approximately 1 000 autonomous polities scattered across the Mediterranean basin and each one developed its own unique set of socio political institutions and social practices The Oxford History of the Archaic Greek World offers twenty one detailed studies of key sites from across the Greek world between c 750 and c 480 BCE a crucial period when much of what is now seen as distinctive about Greek culture emerged All the studies in this seven volume series use the same structure and methodology so that readers can easily compare a wide range of Greek communities The series thus offers a new and unique resource for the study of ancient Greece that will transform how we study and think about a crucial era in ancient Greek history Volume III contains detailed and up to date studies of Cumae and Pithecusae The Cyclades and Cyprus **The Bioarchaeology of Classical Kamarina** Carrie L. Sulosky Weaver,2015-09-23

Choice Outstanding Academic Title Sicily was among one of the first areas settled during the Greek colonization movement making its cemeteries a popular area of study for scholars of the classical world Yet these studies have often considered human remains and burial customs separately In this seminal work Carrie Sulosky Weaver synthesizes skeletal material and ritual data to reconstruct the burial customs demographic trends state of health and ancestry of Kamarina a city state in Sicily Using evidence from 258 recovered graves from the Passo Marinaro necropolis Sulosky Weaver suggests that Kamarineans whose cultural practices were an amalgamation of both Greek and indigenous customs were closely linked to their counterparts in neighboring Greek cities The orientations of the graves positions of the bodies and the types of items buried with the dead including Greek pottery demonstrate that Kamarineans were full participants in the mortuary traditions of Sicilian Greeks Likewise cranial traits resemble those found among other Sicilian Greeks Interestingly evidence of cranial surgery magic and necrophobic activities also appeared in Passo Marinaro graves another example of how Greek culture influenced the city An overabundance of young adult skeletal remains combined with the presence of cranial trauma and a variety of pathological conditions indicates the Kamarineans may have been exposed to one or more disruptive events such as prolonged wars and epidemic outbreaks Despite the tumultuous nature of the times the resulting portrait reveals that Kamarina was a place where individuals of diverse ethnicities and ancestries were united in life and death by shared culture and funerary practices **Our Social World** Dr Jeanne H Ballantine,Keith A. A Companion to the Etruscans Sinclair Bell, Alexandra A. Carpino, 2016-02-23 This new collection presents a rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes

contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the obesus etruscus the function and use of jewelry at different life stages Greek and Roman topoi about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity
