Social Groups And Identities Developing The Legacy Of Henri Tajfel:

Social Groups and Identities William Peter Robinson, 1996 Henri Tajfel made a major contribution to social psychology in Europe This collection bring together the ideas of authors who worked with him in Bristol Each has been strongly influenced by Tajfel an influence which has encouraged diverse approaches and the development of social identity theory *Social Groups and Identities* W. Peter Robinson, 1996 To Aliens and Exiles Tim MacBride, 2020-05-05 Over the space of a generation Christianity in the Western world has gone from occupying a central place in the wider society to being eyed with increasing suspicion and in some places outright hostility Although the church has always been a minority group in the past decade or so it has become reawakened to that reality and to the similarities it shares with the first followers of Jesus for whom the New Testament was written In this book Tim MacBride shows how New Testament texts functioned as rhetoric for the marginalized minority groups they addressed encouraging hearers to resist the pressure to conform to the majority culture yet in a way that remained attractively different to outsiders He offers suggestions for how Christians today and preachers in particular can use and apply the New Testament s minority group rhetoric to speak into our own increasingly marginalized experience Such preaching needs to guard against either being shaped by culture or isolating preacher and hearers against culture It must instead champion the call of New Testament authors to a middle way a call for communities of aliens and exiles to engage with culture by living out an attractive difference The Psychology of Leadership David M. Messick, Roderick M. Kramer, 2004-09-22 In this book some of the world s leading scholars come together to describe their thinking and research on the topic of the psychology of leadership Most of the chapters were originally presented as papers at a research conference held in 2001 at the Kellogg School of Management of Northwestern University The contributions span traditional social psychological areas as well as organizational theory examining leadership as a psychological process and as afforded by organizational constraints and opportunities The editors goal was not to focus the chapters on a single approach to the study and conceptualization of leadership but rather to display the diversity of issues that surround the topic Leadership scholars have identified a host of approaches to the study of leadership What are the personal characteristics of leaders What is the nature of the relation between leaders and followers Why do we perceive some people to be better leaders than others What are the circumstances that evoke leadership qualities in people Can leadership be taught And so on The contributions to this book examine these important questions and fall into three categories conceptions of leadership factors that influence the effectiveness of leadership and the consequences and effects of leadership on the leader All in all the chapters of this volume display part of a broad spectrum of novel and important approaches to the study of the psychology of leadership We hope that they are equally useful to those who are or would be leaders and to those who study the topic As recent events have served to remind us it is too important a topic to be ignored by psychologists *The Psychology of Group Perception* Vincent Yzerbyt, Olivier Corneille, 2004-08-02 This groundbreaking work by leading social

psychologists who have all contributed in important ways to the psychology of group perception focuses in particular on three interrelated issues 1 whether groups are seen to be diverse or relatively homogeneous 2 whether groups are seen as real and stable or only transitory and ephemeral and 3 whether group membership derives from some essential quality of the members or rather is based on social constructions

Families and Family Relations Athalya Brenner, Jan Willem van Henten, 2021-12-28 STAR Studies in Theology and Religion 2 The fruits of discussion at an international gathering of biblical and other scholars interested in families in the ancient Near East are offered here This is not a collection of proceedings in the usual sense rather the essays mark a conscious joint effort to advance the discussion in the newly opened debate on families in the biblical worlds Topics discussed include the metaphor of marriage in Early Judaism the brother sister relationship in Ancient Israel Hebrew family names domesticity in Judaism kinship in the Pauline churches and women in John's Gospel The contributors include among others A van der Kooij R Hachlili G Mussies M Peskowitz P Esler S van Tilborg and R Bieringer

Race and Citizen Identity in the Classical Athenian Democracy Susan Lape, 2010-02-15 In Race and Citizen Identity in the Classical Athenian Democracy Susan Lape demonstrates how a race ideology grounded citizen identity Although this ideology did not manifest itself in a fully developed race myth its study offers insight into the causes and conditions that can give rise to race and racisms in both modern and pre modern cultures In the Athenian context racial citizenship emerged because it both defined and justified those who were entitled to share in the political symbolic and socioeconomic goods of Athenian citizenship By investigating Athenian law drama and citizenship practices this study shows how citizen identity worked in practice to consolidate national unity and to account for past Athenian achievements It also considers how Athenian identity narratives fuelled Herodotus and Thucydides understanding of history and causation

Another Brick in the Barricade: The Gezi Resistance and Its Aftermath Güneş Koç, Harun

Aksu,2015-10-30 After more than two years what has remained of the Gezi Park protests Is Gezi s critique of political power still valid What has changed after Gezi These valid questions linger not properly answered not yet properly discussed Perhaps Gezi s enduring effects and legacy can be discovered in the resistances dissents and practices of political critique that have been created since June 2013 In this book fourteen authors discuss and elaborate on such questions from both political and quotidian perspectives Critique of the power of the multitude the anthropology and ethnography of resistance the causes effects and continuity of the Gezi Park protests are among the issues covered in Another Brick in the Barricade The Gezi Resistance and Its Aftermath This book does not offer all explaining narratives of singular objective truths It does not represent the whole of the multitude A wide perspective of analyses ranging from political science to sociology psychology to anthropology economics to media studies consider Gezi resistance not only as an exceptional state of resistance but also in terms of the new possibilities it offers for political critique These possibilities constitute the fieldwork for academic studies which in turn become part of social struggle This volume seeks to make diversity its distinguishing aspect The phenomena it considers Gezi and its aftermath requires this The interdisciplinary approach and variety of discussions in the volume provide not just critique about power and dominance in Turkey but also inspire resistance against domination and power around the world

The Oxford Handbook of Deaf Studies, Language, and Education, Vol. 2

Marc Marschark,Patricia Elizabeth Spencer,2010-06-28 Oxford Handbooks offer authoritative and up to date reviews of original research in a particular subject area Specially commissioned chapters from leading figures in the discipline give critical examinations of the progress and direction of debates as well as a foundation for future research Oxford Handbooks provide scholars and graduate students with compelling new perspectives upon a wide range of subjects in the humanities social sciences and sciences The adage Those who do not learn from history are doomed to repeat it is a powerful one for parents teachers and other professionals involved with or interested in deaf individuals or the Deaf community Myths grown from ignorance have long dogged the field and faulty assumptions and overgeneralizations have persisted despite contrary evidence A study of the history of deaf education reveals patterns that have affected educational policy and legislation for deaf people around the world these patterns are related to several themes critical to the chapters of this volume One such theme is the importance of parental involvement in raising and educating deaf children Another relates to how Deaf people have taken an increasingly greater role in influencing their own futures and places in society In published histories we see the longstanding conflicts through the centuries that pertain to sign language and spoken communication philosophies as well as the contributions of the individuals who advocated alternative strategies for teaching deaf children More recently investigators have recognized the need for a diverse approach to language and language learning Advances in technology cognitive science linguistics and the social sciences have alternately led and followed changes in theory and practice resulting in a changing landscape for deaf and hard of hearing individuals and those connected to them This second volume

of the The Oxford Handbook of Deaf Studies Language and Education 2003 picks up where that first landmark volume left off describing those advances and offering readers the opportunity to understand the current status of research in the field while recognizing the opportunities and challenges that lie ahead In Volume 2 an international group of contributing experts provide state of the art summaries intended for students practitioners and researchers Not only does it describe where we are it helps to chart courses for the future

The Body for the Lord Alistair May, 2004-09-24 Alistair May explores the part played by sexual ethics and the rhetoric of sexual morality in the formation of Christian identity by focusing on the longest discussion of sex in the New Testament 1Corinthians 5 7 Viewing this passage as a unified discourse he considers how Paul's ethics serve to give his converts a distinct identity Although tools from the social sciences are used the major focus of the work is in careful exegesis of the text As the study progresses through the text of 1Corinthians 5 7 May argues that Paul strives to maintain an absolute distinction between insider and outsider in regard to morality Immorality belongs exclusively to the outside and to the pre conversion identity of the Corinthians Hence those labelled immoral can no longer remain in the community 1 Corinthians 6 12 20 reveals that for Paul sexual sin is unique in its destruction of Christian identity and that any sexual participation is a potential conflict with participation in Christ Thus chapter 6 is directly connected with the discussion of the legitimacy of marriage in 1Corinthians 7 Rejecting the scholarly consensus that Paul is reacting to ascetics May controversially argues that chapter 7 should be read as Paul's commendation of singleness to a reluctant Corinthian audience This is volume 278 in the Journal for the Study of the New Testament Supplement series

The Wiley Handbook of Group Processes in Children and Adolescents Adam Rutland, Drew Nesdale, Christia Spears Brown, 2017-01-30 A definitive reference on intra and inter group processes across a range of age and cultural contexts Children from infancy develop attachments to significant others in their immediate social environment and over time become aware of other groups e.g. gender ethnicity age classroom sports that they do or do not belong to and why Recent research shows that children's attitudes beliefs and behaviours are significantly influenced by these memberships and that the influence increases through childhood This Handbook delivers the first comprehensive international reference on this critical topic

Theories of Violent Conflict Jolle Demmers, 2016-08-10 This revised and updated second edition introduces students of violent conflict to a variety of prominent theoretical approaches and examines the ontological stances and epistemological traditions underlying these approaches Theories of Violent Conflict takes the centrality of the group as an actor in contemporary conflict as a point of departure leaving us with three main questions What makes a group Why and how does a group resort to violence Why and how do or don't they stop The book examines and compares the ways by which these questions are addressed from a number of perspectives primordialism constructivism social identity theory critical political economy human needs theory relative deprivation theory collective action theory and rational choice theory The final chapter aims to synthesize structure and agency based theories by proposing a critical discourse analysis of violent conflict With new material on violence religion

extremism and military urbanism this book will be essential reading for students of war and conflict studies peace studies conflict analysis and conflict resolution and ethnic conflict as well as security studies and IR in general *Leadership and Politics* Adebowale Akande, 2024-07-10 This volume sheds light on the world of organizational politics political leadership and the pivotal roles played by employees and political leaders in managing diverse groups It picks up where influential scholars like Edgar Schein Harry Triandis Bernard Bass Robert House Shalom Schwartz and Geert Hofstede left off providing a timely and transparent exploration of these crucial topics In a rapidly evolving landscape characterized by renewed interest in political skill people management leadership and management diversity training organizational culture workplace incivility ambivalence alliance and career development the book emerges as an invaluable resource assembling a group of renowned contributors in the field who have conducted extensive social research It offers a comprehensive view of contemporary organizational politics psychology at work DEI political skill will HRM leadership effectiveness organizational behavior and culture relationships in the workplace and emotions in politics favoritism workplace incivility ambivalent alliance people analytics and office politics and competition The book discusses the ongoing struggle between knowledge driven scholarship and dogmatic ideology in the workplace and beyond As organizations grapple with the challenges of today's business environment the book therefore is an indispensable guide for scholars consultants and leaders committed to driving continuous improvement and navigating the complex intersection of politics and leadership in the modern workplace

Becoming Christian David G. Horrell, 2013-07-04 The first letter of Peter remains a relatively neglected corner of the New Testament the number of monographs devoted to it is tiny compared with those on the Gospels and Pauline letters Yet it is a text so this book argues that offers much insight into crucial processes in the development of Christian identity In particular 1 Peter illustrates with particular clarity the complex ways in which Christian identity was forged from Jewish traditions and negotiated in the generally hostile Roman empire As such studies of this particular letter illuminate central themes in the making of Christianity in the earliest centuries *Becoming Christian* is a collection of essays that treat various facets of the first letter of Peter in its social and historical setting in some cases using new social scientific and postcolonial methods to shed light on the ways in which the letter contributes to the making of Christian identity At the heart of the book are chapters 5 7 which examine the contribution of 1 Peter to the construction of Christian identity the persecution and suffering of Christians in Asia Minor the significance of the name Christian and the response of the letter to the hostility encountered by Christians in society There are no recent books which bring together such a wealth of information and analysis of this crucial early Christian text *Becoming Christian* has developed out of Horrell's ongoing research for the International Critical Commentary on 1 Peter Together these essays will offer a series of significant and original engagements with this letter and a resource for studies of 1 Peter for some time to come **Coping with Minority Status** Fabrizio Butera, John M. Levine, 2009-08-31 Society consists of numerous interconnected interacting and interdependent

groups which differ in power and status The consequences of belonging to a higher status majority versus a lower status minority can be profound To understand the origins of the problems caused by majority minority tensions and develop solutions it is necessary to understand the dynamics of majority minority relations This volume brings together leading scholars in the fields of stigma prejudice and discrimination minority influence and intergroup relations to provide diverse theoretical and methodological perspectives on what it means to be a minority

Research Handbook on Communication and Prejudice Elvis Nshom, Stephen Croucher, 2024-08-06 This informative Research Handbook brings together a unique combination of methodological philosophical and theoretical perspectives to present a comprehensive overview of communication and prejudice research

Small Groups John M. Levine, Richard L. Moreland, 2008-02-19 Research on small groups is highly diverse because investigators who study such groups vary in their disciplinary identifications theoretical interests and methodological preferences The goal of this volume is to capture that diversity and thereby convey the breadth and excitement of small group research by acquainting students with work on five fundamental aspects of groups The volume also includes an introductory chapter by the editors which provides an overview of the history of and current state of the art in the field Together with introductions to each section discussion questions and suggestions for further reading make the volume ideal reading for senior undergraduate and graduate students interested in group dynamics
