## **Social Studies And Fine Art:**

*The Art of Social Studies* Jennifer Rivera, 2017 This graduate project discusses the importance of art integration within elementary social studies curriculum This project highlights the need for integration to drive engagement and understanding of the social studies content rather than the traditional teaching method approach The project shows how the use of art curriculum can be co equally taught to boost student content knowledge in art concepts and social studies concepts This project explores how first hand experience can play an important role in a student s ability to make content relevant to their own lives by building their understanding The idea is that experiences with primary sources and different outlets of art such as dance music fine art and theater allow for students to become involved with the lesson taking a broader perspective on the explored topic or idea The project points out why there has been a decline in social studies and arts education and how there is a slow moving push to get both subjects back into education The decline in both subjects exposure to students and the push for more exposure led to the developed lesson series on a fourth grade social studies unit The ten lesson series outlined in the final chapter of the project is intended to help educate and assist fourth grade elementary teachers to begin using proper content integration within their own classrooms
