Social Theory Of International Politics:

Social Theory of International Politics Alexander Wendt, 1999-10-07 Develops a cultural theory of international politics which contrasts with the realist mainstream *Social Theory of International Politics* Alexander Wendt, 1999 In Social Theory of International Politics Wendt argues that states can view each other as enemies rivals or friends These roles can change over time so that the international system is not condemned to conflict and war **Making Sense, Making Worlds** Nicholas Onuf, 2013-05-07 Nicholas Onuf is a leading scholar in international relations and introduced constructivism to international relations coining the term constructivism in his book *World of Our Making* 1989 He was featured as one of twelve scholars featured in Iver B Neumann and Ole W ver eds *The Future of International Relations* Masters in the Making 1996 and featured in Martin Griffiths Steven C Roach and M Scott Solomon *Fifty Key Thinkers in International Relations* 2nd ed 2009 This powerful collection of essays clarifies Onuf s approach to international relations and makes a decisive contribution to the debates in IR concerning theory It embeds the theoretical project in the wider horizon of how we understand ourselves and the world Onuf updates earlier themes and his general constructivist approach and develops some newer lines of research such as the work on metaphors and the re grounding in much more Aristotle than before A complement to the author s groundbreaking book of 1989 *World of Our Making* this tightly argued book draws extensively from philosophy and social theory to advance constructivism in International Relations *Making Sense Making Worlds* will be vital reading for students and scholars of international relations international relations theory social theory and law

Social Theory of International Politics Alexander Wendt, 2003

Critical Theory of International Politics Steven C. Roach, 2013-05-13 Critical international theory encompasses several distinct radical approaches that focus on identity difference hegemonic power and order As an applied theory critical international theory draws on critical social theories to shed light on international processes and global transformations While this approach has led to increasing interest in formulating an empirically relevant critical international theory it has also revealed the difficulties of applying critical theory to international politics What are these difficulties and problems And how can we move beyond them This book addresses these questions by investigating the intellectual currents and key debates of critical theory from Kant and Hegel to Habermas

and Derrida and the recent work of critical international theory including Robert Cox and Andrew Linklater. By drawing on these debates the book formulates an original theory of complementarity that brings together critical theory and critical international theory. It argues that complementarity, a governing principle in international law and politics, offers a conceptual framework for working toward two goals: engaging the changing contexts and forms of resistance and redressing some of the difficulties of applying critical theory to international relations. In adopting three critical perspectives on complementarity to analyze the evolving social and political contexts of global justice, this book provides an essential resource for undergraduate and graduate students and scholars interested in the application of critical theory to international relations. International Relations' Last Synthesis? J. Samuel Barkin, Laura Sjoberg, 2019-02-12. Many scholars intentionally or unintentionally have entangled constructivism and critical theories in problematic ways, either by assigning a critical theoretical politics to constructivism or by assuming the appropriateness of constructivist epistemology and methods for critical theorizing. IR's Last Synthesis makes the argument that these connections mirror IR's grand theoretical syntheses of the 1980s and 1990s and have similar constraining effects on the possibilities of IR theory. They have been made without adequate reflection in contradiction to the base assumptions of each theoretical perspective and to the detriment of both knowledge accumulation about global politics and theoretical rigor in disciplinary IR. It is not that constructivism and critical theories have no common ground; rather, the fact that it has become routine for IR scholars to overstate their common ground is counterproductive to the discovery and utilization of their potential dialogues. To that end, IR's Last Synthesis argues that scholars using the two in conjunction should be cognizant of rather than gloss over the tensions between the approaches and the tools they have to offer. Along these lines, the book uses the concept of affordances to look at what each has to offer the other and to argue for a modest reflective specified return to constructivist and critical IR theorizing. By rejecting its over-simple syntheses, this book hews a road toward reviving IR theorizing. International Relations Theory Knud Erik Jørgensen, 2017-09-30. This is a major new edition of a highly regarded textbook on International Relations theory which combines deep analysis into the diversity of thought within the major scholarly traditions and the guidance for students on doing their own theorising. Knud Erik Jørgensen analyses the nuances of the main contending theories and approaches, their philosophical underpinnings, and explains their use and relevance to different research agendas. This is all placed within the context of cross-cutting coverage of key current issues and debates of the philosophical foundations of IR theory and of why different theories are addressed to different research agendas. All chapters have been fully revised and updated, and a new chapter on the Human Nature tradition has been included to reflect the changes within the field. This text is the most up-to-date and informative text on International Relations theory and is an essential companion for all International Relations students.
