Social Trends in the Soviet Union from 1950 Michael Ryan, Richard Prentice, 1987-10-20 Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture *Soviet Urbanization* Olga Medvedkov, 2017-10-30 Originally published in 1990 Soviet Urbanization provides an assessment of Soviet urban systems Drawing on her personal experiences at the Soviet Academy of Sciences and bringing with her much material otherwise unavailable in the West the author analyses the structure of the Soviet urban network and its future development under the constraints of central planning The author concludes that the danger to Soviet urbanization programme lies in the gap between central planning on the one hand and actual spatial change on the other This book will appeal to students and academics working in the disciplines of geography urban studies and planning A History of Russia: Since 1855 Walter G.
