Social Work Practice Problem Solving And Beyond:

Social Work Practice Tuula Heinonen, Leonard B. Spearman, 2001 Social Work Practice Problem Solving and Beyond breaks new ground in the field of social work Starting with a history of the emergence of social work in Canada this social work practice text presents a view of social work that incorporates not without criticism problem solving as foundational to traditional practice but also a conception of practice that takes us beyond The authors argue that there are newer approaches that both critique and enrich generalist social work practice Strengths Aboriginal structural and feminist approaches need to be incorporated into generalist social work practice This text was written using perspectives relevant to modern social work practice in North America It examines policy and relates it specifically to social work practice A full chapter is devoted to cultural diversity and awareness in social work Further all of the approaches in the book are presented as culturally sensitive Social Work Practice Problem Solving and Beyond while drawing upon both Canadian and American content emphasizes Canadian social work experience and developments The Canadian experience often without fanfare has greatly enriched social work practice The authors have formulated a model of generalist social work practice that they believe can work in other societies with comparable social work education social welfare and social policy environments The authors seek to expand students exposure to a broad set of approaches and principles of social work within the generalist context By doing so they overcome the temptation to limit students understandings of social work to constricted practice and knowledge areas that apply only to specific populations of social work clients **Social Work Practice** Tuula

Heinonen, Leonard B. Spearman, 2009-09-15 Social Work Practice Problem Solving and Beyond presents a view of social work that incorporates not without criticism problem solving as foundational to traditional practice While drawing upon international and American content the text emphasizes Canadian social work experience and developments Tuula Heinonen and Len Spearman also argue that there are newer approaches that both critique and enrich generalist social work practice strengths Aboriginal structural and feminist approaches need to be incorporated into generalist social work practice The goal of Social Work Practice Problem Solving and Beyond is to expand students exposure to a broad set of approaches and principles of social work within the generalist context **Social Work Practice, [ECH Master]** Tuula Heinonen, 2008

101 Social Work Clinical Techniques Francis J. Turner, William Rowe, 2013-05-08 The purpose of the book is to enhance the concept of Technique in the teaching and practice of Social Work Over the years Technique has not been stressed as a part of practice even though the actual practice of Social Work consists of the utilization of techniques in addition to theory and the process of assessment and diagnosis The book seeks to achieve its goal in four ways It addresses the way the concept of Technique has or has not been used over the years It addresses the need for a clear definition of technique It analysis the qualities that Technique should have at this point in our history of clinical practice It then formulates and presents a definition of technique for our thesis based on this definition It then presents a brief discussion of

101 Techniques discussed in contemporary literature by discussing each one's place in practice a bit about its history and necessary knowledge skills to use responsibly It addresses the latter by grouping a level of risk involved in its utilization

Indigenous Social Work around the World John Coates, 2016-05-23 How can mainstream Western social work learn from and in turn help advance indigenous practice This volume brings together prominent international scholars involved in both Western and indigenous social work across the globe including James Midgley Linda Briskman Alean Al Krenawi and John R Graham to discuss some of the most significant global trends and issues relating to indigenous and cross cultural social work The contributors identify ways in which indigenization is shaping professional social work practice and education and examine how social work can better address diversity in international exchanges and cross cultural issues within and between countries Key theoretical methodological and service issues and challenges in the indigenization of social work are reviewed including the way in which adaptation can lead to more effective practices within indigenous communities and emerging economies and how adaptation can provide greater insight into cross cultural understanding and practice

Social Work and the Environment Michael Kim Zapf, 2009 This ground breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions and offers a new and attractive foundational metaphor for social work The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility identity and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century Why is that a profession with a declared focus on person in environment has been so silent on the environmental crisis Mainstream social work theory has narrowed the understanding of environment to include merely the social environment but this approach is no longer sufficient for participation in multi disciplinary efforts to tackle urgent environmental issues Transformative notions of responsibility identity and stewardship have been developed on the fringes of our professional community rural remote social workers Aboriginal social workers and international and spiritual social workers They must now move to the core of the profession

Social Work Treatment Francis J. Turner, 2011-03-15 First published in 1974 Social Work Treatment remains the most popular and trusted compendium of theories available to social work students and practitioners It explores the full range of theoretical approaches that drive social work treatment and knowledge development from psychoanalysis to crisis intervention This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches each of which shine a spotlight on a different aspect of the human condition Emphasizing the importance of a broad based theoretical approach to practice it helps the reader avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts This sweeping overview of the field untangles the increasingly complex problems ideologies and value sets that define contemporary social work practice The result is an essential A to Z reference that charts the full range of theoretical approaches available to

Social Work in Health and Mental Health Tuula Heinonen, Anna Metteri, 2005 Social Work in Health and Mental Health: Issues, Developments, and Actions was created for final year undergraduate and master's level students in the health and mental health fields. It is primarily a book on social work practice, discussing how one might approach a specific health or mental health-related problem or issue as a social worker. Health and mental health are conceptualized broadly in this volume. The health and well-being of body and mind are seen as integrally connected, shaped by biological, physical, psychological, material, social, and structural features and determinants. Clients are viewed as active, engaged agents with strengths and resources from which to draw in meeting everyday challenges and major life crises. Contributions from around the world allow the social work student to learn about current practice in places as diverse as Australia, Finland, China, South Africa, Wales, Canada, and the United States. Each chapter is accompanied by both reflection questions and a case study derived from practice, and written to stimulate discussion that develops assessment and treatment planning skills.

Wicihitowin Gord Bruyere (Amawaajibitang), Michael Anthony Hart (Kaskitémahikan), Raven Sinclair (Ótiskewápiwskew), 2020-05-06T00:00:00Z Wicihitowin is the first Canadian social work

book written by First Nations Inuit and Métis authors who are educators at schools of social work across Canada. The book begins by presenting foundational theoretical perspectives that develop an understanding of the history of colonization and theories of decolonization and Indigenist social work. It goes on to explore issues and aspects of social work practice with Indigenous people to assist educators, researchers, students, and practitioners to create effective and respectful approaches to social work with diverse populations. Traditional Indigenous knowledge that challenges and transforms the basis of social work with Indigenous and other peoples comprises a third section of the book. W. Cihitowin concludes with an eye to the future which the authors hope will continue to promote the innovations and creativity presented in this groundbreaking work.

Expressive Arts for Social Work and Social Change Tuula Heinonen, Deana Halonen, Elizabeth Krahn, 2018-08-20

How can social workers integrate expressive arts methods as a complement to their work to better support individual, group, and community growth? Expressive Arts for Social Work and Social Change explores the values and benefits of expressive arts, i.e., visual arts, movement, and dance, expressive forms of writing, and narrative music and performance, and the role they can play in social work practice and inquiry. Although previous research has illustrated the efficacy of expressive arts to individual therapeutic goals, this is the first work that looks at the use of these approaches to fulfill the values, ethics, and principles of the social work profession. The authors draw from current and emerging concepts related to green social work, including individual and collective well-being, Indigenous perspectives and practices, social justice, and social action, and individual as well as collective creative expression. This book provides insight and advice that will benefit all human service professionals interested in expressive arts.

Beyond Multiculturalism in Social Work Practice Kui-Hee Song, 2004. Drawn from experience, this in-depth case study presents an integrated approach to social work practice with culturally, linguistically diverse clients to show how theories of postmodernism and multiculturalism can be applied when working with Korean immigrant families. Fighting for Girls Meda Chesney-Lind, Nikki Jones, 2010-09-03. Have girls really gone wild? Despite the media fascination with bad girls, facts beyond the hype have remained unclear. Fighting for Girls focuses on these facts and uses the best data available about actual trends in girls' uses of violence. The scholars here find that by virtually any measure, incidents of girls' violence are going down, not up. Additionally, rather than attributing girls' violence to personality or to girls becoming more like boys, Fighting for Girls focuses on the contexts that produce violence in girls, demonstrating how addressing the unique problems that confront girls in dating relationships, families, school hallways and classrooms, and in distressed urban neighborhoods can help reduce girls' use of violence. Often including girls' own voices, contributors to the volume illustrate why girls use violence in certain situations, encouraging us to pay attention to trauma in the girls' pasts as well as how violence becomes a tool girls use to survive toxic families, deteriorated neighborhoods, and neglectful schools. **Social**
