The Life Model of Social Work Practice Alex Gitterman, Carel B.

Germain, 2008 Originally published in 1980 this seminal work was the first to introduce an ecological perspective into social work practice The third edition expands and deepens this perspective further developing the basic premise that by being situated within the people environment interface the social work profession is distinct from other service professions The book presents the what theories and concepts and the how practice methods to help people with their life stressors and simultaneously to influence communities organizations and policymakers to be more responsive to them In this edition Gitterman and Germain examine major changes to our socioeconomic and political landscape They restore a chapter on the history of social work practice offering a view of the limited services for African Americans provided by settlements and charity organization societies Building on the African American self help and mutual aid traditions this chapter traces the replication of a parallel social service system by African American leaders for their own communities The chapter also addresses the impact of contemporary societal trends including the global economy immigration cultural changes and the technology revolution In addition it discusses current professional contexts of managed mental health care evidence based practice and the professional uses of technology A new chapter explores issues and processes embedded in assessment practice monitoring and practice evaluation The volume continues to feature innovative schema for assessment and intervention with respect to stressful life transitions and traumatic events environmental pressures and dysfunctional interpersonal processes Practice illustrations offer reflections of today's major social issues such as AIDS homelessness and modern forms of violence

*Critical Issues for Future Social Work Practice with Aging Persons* Sheila M. Neysmith, 1999 A massive restructuring of health care in virtually all the wealthy nations of the West has offloaded services and costs from governmental responsibility into home care services and onto families a burden borne primarily by women This restructuring has profoundly altered not only the practice of social work but also its representation in language and theory As this volume demonstrates many of the consequences social workers must face are made more difficult by the dominance of a market discourse that excludes a social justice framework The authors aim not to prescribe specific guidelines for practice but to challenge current arrangements and explanations in order to open the discourse and generate alternatives so that people receiving care might have fuller and more satisfying lives Written by social work theorists and specialists from the U S Canada and New Zealand the chapters focus on topics of long term care as they affect vulnerable groups women in particular as they age Subjects include constructing community support aging and caregiving in culturally diverse families changing demographics of widowhood and the new millennium's challenges for social work on aging and disability

**Paradoxes in Social Work Practice** Merlinda Weinberg,2016-03-17 In the helping professions codes of ethics and decision making models have been the primary vehicles for determining what constitutes ethical practice These strategies are insufficient since they assume that shared meanings exist and that the contradictory universal principles of codes can be reconciled Also these tools do not emphasize the significance of context for ethical practice This book takes a new critical theoretical approach which involves exploring how social workers construct what is ethical in their work especially when they are positioned at the intersection of multiple paradoxes including that of two opposing responsibilities in society namely to care for others but also to prevent others from harm The book is built on narratives from actual front line workers and therefore is more applicable and grounded for practitioners and students offering many suggestions for sound practice It illustrates that an understanding of ethics differs from worker to worker and is heavily influenced by context workers values and what they take up as the primary discourses that frame their perceptions of the profession While recognizing the oppressive potential of social work the book is rooted in a perspective that ethical practice can contribute to a more socially just society

**Social Work Practice** Eileen Gambrill,2012-10-31 The first textbook to emphasize the importance of critical thinking skills to practice this third edition of the classic Social Work Practice retains its unique focus on thinking critically about decisions that social workers make daily Organized around the phases of helping this hands on introduction highlights the decision points that social workers encounter during assessment intervention and evaluation This text together with its companion website provides students with a wealth of hands on exercises for developing and assessing their practice skills Most importantly it helps students enhance client well being by becoming critical thinkers and evidence informed practitioners
