Emphasis on measurement techniques can interfere with understanding how well particular social programs in their field work In Making a Difference The Practice of Sociology Irwin Deutscher links traditional sociological concerns with applied sociology in an effort to overcome this problem He contributes to the debate over the extent to which health educational and social programs initiated by the Roosevelt Kennedy and Johnson administrations have been successful in intimate human terms Deutscher believes that the introduction of a sociological perspective can provide a positive element to interdisciplinary pursuits This belief as well as his fresh perspectives on both the strengths and limitations inherent in applied sociology offer the field a revitalising lift As such this highly informative thought provoking volume will be of interest to sociologists and policy makers in health education crime welfare and housing **Sociological Practice**, 1991
