the Disneyverse contextualizing its films within larger conversations about power relations The depictions of surveillance racial segregation othering and ableism represent real issues that impact people and their lived experiences Unfortunately storytellers often oversimplify or mischaracterize complex matters on screen To counter this contributors investigate these unspoken and sometimes unintended meanings By applying the lenses of various theoretical approaches including ecofeminism critiques of exceptionalism and gender queer and disability studies authors uncover underlying ideologies These discussions help readers understand how Disney's output both reflects and impacts contemporary cultural conditions

*Official Gazette of the United States Patent and Trademark Office*, 2005      *Point of View in the Cinema* Edward Branigan, 2012-01-02 Branigan effectively criticizes the communication model of narration a task long overdue in Anglo American circles The book brings out the extent to which mainstream mimetic theories have relied upon the elastic notion of an invisible idealized observer a convenient spook whom critics can summon up whenever they desire to naturalize style The book also makes distinctions among types of subjectivity after this we will have much more precise ways of tracing the fluctuations among a character's vision dreams wishes and so forth Branigan also explains the necessity of distinguishing levels of narration      *Catalog of Copyright Entries, Third Series* Library of Congress. Verkler, 1993      **Inside the Drama-House** Stuart Blackburn, 1996-05-28 Stuart Blackburn takes the reader inside a little known form of shadow puppetry in this captivating work about performing the Tamil version of the Ramayana epic Blackburn describes the skill and physical stamina of the puppeteers in Kerala state in South India as they perform all night for as many as ten weeks during the festival season The fact that these performances often take place without an audience forms the starting point for Blackburn's discussion one which explores not only this important epic tale and its performance but also the broader theoretical issues of text interpretation and audience Blackburn demonstrates how the performers adapt the narrative and add their own commentary to re create the story from a folk perspective At a time when the Rama story is used to mobilize political movements in India the puppeteers elaborate recitation and commentary presents this controversial tale from another ethical perspective one that advocates moral reciprocity and balance While the study of folk narrative has until now focused on tales tellers and tellings this work explores the importance of audience absent or otherwise Blackburn's elegant translations of the most dramatic and pivotal sequences of the story enhance our appreciation of this unique example of performance art      *The Bookseller*, 1912 Official organ of the book trade of the United Kingdom
