,1984 **The Storyteller's Dilemma** Louis Hernandez Jr,2017-03-01 Book Human beings are natural storytellers and it's never been easier to access digital technologies that allow anyone anywhere to share their story with the world More stories are being produced and consumed now than at any other time in our species history yet for some reason it's never been more difficult to cut it as a creative Consumers are paying less if anything for all forms of entertainment traditional media companies are tanking and the advertising realm has been turned on its head Although operating budgets have increased in every sector storytellers are making less than ever before as the lion's share of new revenues cyclically feed mechanisms for distribution and monetization Our media landscape is in short unsustainable and in the midst of a crisis What went wrong How can we fix it Although he presides over Avid the leading provider of audio and video technology for creatives and media

professionals Louis Hernandez Jr isn't your typical multinational CEO In his two previous books *Too Small to Fail* *How the Financial Industry Crisis Changed the World's Perceptions* and *Saving the American Dream* Main Street's Last Stand he chartered his vision of an egalitarian America structured around the communities that compose its very foundation He brings the same mindset the same notion of countless small actors with unlimited potential to the tumultuous world of media with his third book *The Storyteller's Dilemma: Overcoming the Challenges in the Digital Media Age* In *The Storyteller's Dilemma* Hernandez puts forth another comprehensive vision for our future that aims to advantage all while disadvantaging none This book is neither a diatribe against economic elites nor a postmortem analysis of the ills of digital distribution Instead it proposes a new approach with the potential to benefit all involved parties an approach that at once embraces the intensifying power of storytelling and eschews the notion that disruption and instability must greet an industry hand in hand Rather than favoring any given group over another Hernandez imagines a streamlined world of shared platforms and common standards that empower storytellers developers and deliverers alike By dispensing of business models that have proved unviable in the digital age we can turn higher profits while more equitably compensating creatives and creative endeavors In today's networked world the economics of storytelling matters to everybody It's time we all got onboard
