Balizet,2014-04-24 In this volume the author argues that blood was crucially a means by which dramatists negotiated shifting contours of domesticity in 16th and 17th century England Early modern English drama vividly addressed contemporary debates over an expanding idea of the domestic which encompassed the domus as well as sex parenthood household order the relationship between home and state and the connections between family honor and national identity The author contends that the domestic ideology expressed by theatrical depictions of marriage and household order is one built on the simultaneous familiarity and violence inherent to blood The theatrical relation between blood and home is far more intricate than the idealized language of the familial bloodline the home was itself a bloody place with domestic bloodstains signifying a range of experiences including religious worship sex murder birth healing and holy justice Focusing on four bleeding figures the Bleeding Bride Bleeding Husband Bleeding Child and Bleeding Patient the author argues that the household blood of the early modern stage not only expressed the violence and conflict occasioned by domestic ideology but also established the home as a site that alternately reified and challenged patriarchal authority

Meaning, Labyrinths of Fear Brendan Myers, 2012-03-16 You've heard of sacred places, writings, relics, and rituals, holy days and magical times of year. But these are actually representations of relationships that people have with each other and the elements of the world. Some of these relationships are environmental; they involve landscapes, animals, and the streets of your home town. Some are personal, such as families, friends, and elders. Some are public, involving musicians, storytellers, medical doctors, and even soldiers. This book studies twenty-two relationships from a variety of traditions and shows their place in the good life. Yet these relations are always fragile and threatened by fears, from the fear of loneliness to the fear of the loss of personal or political freedom to the fear of death. To escape from these fears, people often trap themselves into ways of life that are bad for everyone, including themselves. This book studies how that happens and how to prevent it. More than beliefs, laws, and teachings, our relationships are the true basis of spirituality and freedom. *The Indians* John MacLean, 1889
