*Strange Days* Dan Chichester, 1996 The exclusive official comic book adaptation of the new sci fi film of the same name from James Cameron starring Ralph Fiennes Angela Bassett and Juliette Lewis In a near future Los Angeles where virtual reality is pushed on the streets like drugs *Strange Days* tells a spellbinding story of money death and betrayal Color illustrations *Virtual Reality* Melanie Chan, 2015-07-30 The idea of virtual realities has a long and complex historical trajectory spanning from Plato's concept of the cave and the simulacrum to artistic styles such as Trompe L'oeil and more recently developments in 3D film television and gaming However this book will pay particular attention to the time between the 1980s to the 1990s when virtual reality and cyberspace were represented particularly in fiction as a wondrous technology that enabled transcendence from the limitations of physical embodiment The purpose of this critical historical analysis of representations of virtual reality is to examine how they might deny repress or overlook embodied experience Specifically the author will contend that embodiment is a fundamental aspect of immersion in virtual reality rather than something which is to be transcended In this way the book aims to challenge distorted ideas about transcendence and productively contribute to debates about embodiment and technology
