Daftweejimmy,2022-10-31 People say When life deals you lemons make lemonade as if they knew the recipe and of course could lay hands on the other ingredients The people between the covers of this book tried to follow the initial advice and this is the result not exactly lemonade not exactly soup not exactly toxic but more or less what you might expect if you tried making lemonade from substitute ingredients such as cabbage stalks bacon rind honey brewer s yeast and fermented socks PLEASE NOTE this is not an approved recipe You can try it in the safety of your own home but the author takes no responsibility for the results he can make an educated guess **Irish Life and Character; or, Tales and stories of the**

Irish peasantry William Carleton,1860 *The Watcher, and other weird stories* Joseph Sheridan Le Fanu,2016-01-10 It is now more than fifty years since the occurrences which I am about to relate caused a strange sensation in the gay society of Dublin The fashionable world however is no recorder of traditions the memory of selfishness seldom reaches far and the events which occasionally disturb the polite monotony of its pleasant and heartless progress however stamped with the characters of misery and horror scarcely outlive the gossip of a season and except perhaps in the remembrance of a few more directly interested in the consequences of the catastrophe are in a little time lost to the recollection of all The appetite for scandal or for horror has been sated the incident can yield no more of interest or novelty curiosity frustrated by impenetrable mystery gives over the pursuit in despair the tale has ceased to be new grows stale and flat and so in a few years inquiry subsides into indifference Somewhere about the year 1794 the younger brother of a certain baronet whom I shall call Sir James Barton returned to Dublin He had served in the navy with some distinction having commanded one of his Majesty s frigates during the greater part of the American war Captain Barton was now apparently some two or three and forty years of age He was an intelligent and agreeable companion when he chose it though generally reserved and occasionally even moody In society however he deported himself as a man of the world and a gentleman He had not contracted any of the noisy brusqueness sometimes acquired at sea on the contrary his manners were remarkably easy quiet and even polished He was in person about the middle size and somewhat strongly formed his countenance was marked with the lines of thought and on the whole wore an expression of gravity and even of melancholy Being however as we have said a man of perfect breeding as well as of affluent circumstances and good family he had of course ready access to the best

society of the metropolis without the necessity of any other credentials In his personal habits Captain Barton was economical He occupied lodgings in one of the then fashionable streets in the south side of the town kept but one horse and one servant and though a reputed free thinker he lived an orderly and moral life indulging neither in gaming drinking nor any other vicious pursuit living very much to himself without forming any intimacies or choosing any companions and appearing to mix in gay society rather for the sake of its bustle and distraction than for any opportunities which it offered of interchanging either thoughts or feelings with its votaries Barton was therefore pronounced a saving prudent unsocial sort of a fellow who bid fair to maintain his celibacy alike against stratagem and assault and was likely to live to a good old age die rich and leave his money to a hospital

Other Weird Stories Le Fanu J.S., Joseph Thomas Sheridan Le Fanu 1814 1873 was an Irish writer of Gothic novels one of the most influential ghost story writers of the nineteenth century *The Watcher* and *Other Weird Stories* is a collection of beautifully written tales of the uncanny including *The Watcher* itself and five other alluring fascinating stories like *The Dream* and *A Chapter in the History of a Tyrone Family* True Stories of Strange Events and Odd People Lawrence S. Bartell, 2014 Lawrence Bartell experienced many strange events over the course of his long life at least partly because he deliberately strayed far from the beaten path in science While it might not have been the most efficient way to gain a reputation in his field it was more fun In his memoir he presents a collection of entertaining sometimes bizarre stories collected over a lifetime Bartell chronicles a wide variety of experiences such as his predisposition to indulge in childhood pranks his arrest as a possible Russian spy his work on the Manhattan Project his entry into the Guinness Book of Records his stint in the US Navy during wartime and his appointment as visiting professor in Moscow during the height of the Cold War As he recalls the curious and often bizarre true stories he acquired over a lifetime it soon becomes evident that scientists are just as human as anyone else and that beer really can play an important role in preparing one for a PhD thesis *True Stories of Strange Events and Odd People* shares details from a scientist's one of a kind journey through life as he observes the world around him tests his theories and learns valuable life lessons **Illustrated Catalogue of Books, Standard and Holiday** McClurg, Firm, Booksellers, Chicago, 1897 *Finding List of the Library* Somerville (Mass.). Space, Life, Science and Stories Carl L. DeVito, 2019-11-18 Some time ago an unusual book sold over seventy million copies and was translated into twenty eight languages It dealt with the possibility of life from the cosmos visiting humanity This was just one of many surges of public interest in this matter Unfortunately the scientific community rarely addresses the causes of these surges This leaves many confused not sure what to believe Indeed there are always those who try to exploit this confusion This book explores the causes of the surges the stories they generate and the relevant science It does not presuppose in depth knowledge on the part of the reader allowing them to become aware of the sciences behind these stories and to judge them for themselves
