Strange Story An Alchemical Novel:

A Strange Story ,1973 History of the Gothic: Gothic Literature 1825-1914 Jarlath Killeen,2009-07-01 Examines how themes and trends associated with the early Gothic novels were diffused in many genres in the Victorian period including the ghost story the detective story and the adventure story **Gothic Immortals (Routledge Revivals)** Marie Mulvey-Roberts,2016-05-05 First published in 1990 this book represents the first full length study of into the group of novels designated Rosicrucian and traces the emergence of this distinct fictional genre revealing a continuous occult tradition running through seemingly diverse literary texts Taking the Enlightenment as a starting point the author shows how the physician s secular appropriation of the idea of eternal life through the study of longevity and physical decay attracted writers like William Godwin It focuses on the bodily immortality of the Rosicrucian hero and investigates the novels of five major writers Godwin Percy Bysshe Shelley Mary Shelley Maturin and Bulwer Lytton **Gothic Writers** Douglass H. Thomson,Jack G. Voller,Frederick S. Frank,2001-11-30 With its roots in Romanticism antiquarianism and the primacy of the imagination the Gothic genre originated in the 18th century flourished in the 19th and continues to thrive today This reference is designed to accommodate the critical and bibliographical needs of a broad spectrum of users from scholars seeking critical assistance to general readers wanting an introduction to the Gothic its abundant criticism and the present state of Gothic Studies The volume includes alphabetically arranged entries on more than 50 Gothic writers from Horace Walpole to Stephen King Entries for Russian Japanese French and German writers give an international scope to the book while the focus on English and American literature shows the dynamic nature of Gothicism today Each of the entries is devoted to a particular author or group of authors whose works exhibit Gothic elements beginning with a primary bibliography of works by the writer including modern editions This section is followed by a critical essay which examines the author s use of Gothic themes the author s place in the Gothic tradition and the critical reception of the author s works The entries close with selected annotated bibliographies of scholarly studies The volume concludes with a timeline and a bibliography of the most important broad scholarly works on the Gothic **The Heritage of Hermes** Alexandra Lember, Alexandra Lember-Heidenreich,2004 **Americans on Fiction, 1776-1900 Volume 2** Peter Rawlings,2017-09-29 A collection of prefaces reviews and articles by Americans on American and European fiction Charted in these three volumes which span 1776 to 1900 is the movement from anxious defences of the novel as a necessary vehicle of truth and morality to fully fledged theoretical exfoliations **The Racialization of the Occult in Nineteenth Century British Literature** John Bliss,2023-07-19 This book focuses on the representation of the practitioner of the occult in mid to late nineteenth century British literature The occult was a source of emotional support and scientific curiosity during this time of change and uncertainty because it seemed to offer answers to both spiritual and scientific questions through measurable albeit unconventional means However the occult was also viewed as a threat to British society an assault on it

values and a fundamental danger to emerging scientific enterprise By examining the ways in which the occult and its practitioners are represented in British novels from 1850 1900 this book traces the ways that the novels commented on participated in and contributed to the racialization of the occult that occurred throughout the nineteenth century in Britain The representations of the occult characters in these novels interpreted and transmitted the social political economic and scientific discourses about race in the nineteenth century to the reading public as well as participating in the discourse surrounding race and the occult *Americans on Fiction, 1776-1900 Volume 3* Peter Rawlings, 2017-09-29 A collection of prefaces reviews and articles by Americans on American and European fiction Charted in these three volumes which span 1776 to 1900 is the movement from anxious defences of the novel as a necessary vehicle of truth and morality to fully fledged theoretical exfoliations Novels Edward Bulwer Lytton Baron Lytton, 1892 Victorian Gothic J. Wolfreys, R. Robbins, 2000-09-24 To what extent did the Gothic haunt the nineteenth century Victorian Gothic seeks to answer this as it introduces the reader to a timely revision of notions of the Gothic in all its manifestations The Gothic is found to haunt all aspects of Victorian literature and culture Moreover Victorian Gothic connects its disparate areas of research in returning repeatedly to the question of the constitution of the subject in a study of the Victorians from the 1830s to the 1890s

Bulwer's Novels: Zanon Edward Bulwer Lytton Baron Lytton, 1892 **The Book of English Magic** Philip Carr-Gomm, Richard Heygate, 2010-10-14 A guide to England's rich history of magical lore and practice for readers of works like Harry Potter who have grown up a bit into wanting to know more The Hermetic Library Through experiments to try and places to visit as well as a historical exploration of magic and interviews with leading magicians The Book of English Magic will introduce you to the extraordinary world that lies beneath the surface Magic runs through the veins of English history part of daily life from the earliest Arthurian legends to Aleister Crowley to the novels of Tolkien and Philip Pullman and from the Druids to Freemasonry and beyond Richly illustrated and deeply knowledgeable this book is an invaluable source for anyone curious about magic and wizardry or for sophisticated practitioners seeking to expand their knowledge Playful and serious respectful and amused this will remain the standard work for years to come The Sunday Telegraph A magical mystery tour The Times Fabulous Daily Express Lucid and wonderfully easy to read While it is indeed a perfect book for the intelligent novice it's far more than that it's a serious in depth survey of a massive topic WitchVox An accessible and immensely readable book A fascinating insight into a hidden world Booksquawk **Spirit Matters** J. Jeffrey Franklin, 2018-03-15 Spirit Matters explores the heterodox and unorthodox religions and spiritualities that arose in Victorian Britain as a result of the faltering of Christian faith in the face of modernity the rise of the truth telling authority of science and the first full exposure of the West to non Christian religions J Jeffrey Franklin investigates the diversity of ways that spiritual seekers struggled to maintain faith or to create new faiths by reconciling elements of the Judeo Christian heritage with Spiritualism Buddhism occultism and scientific naturalism Spirit Matters covers a range of scenarios from the Victorian

hearth and the state Church altar to the frontiers of empire in Buddhist countries and Egyptian crypts Franklin reveals how this diversity of elements provided the materials for the formation of new hybrid religions and the emergence in the 20th century of New Age spiritualities Franklin investigates a broad spectrum of experiences through a series of representative case studies that together trace the development of unorthodox religious and spiritual discourses The ideas and events discussed by Franklin through these case studies were considered outside the domain of orthodox religion yet still religious or spiritual rather than atheistic or materialistic Among the works obscure and canonical he analyzes are Edward Bulwer Lytton's *Zanoni* and *A Strange Story* *Forest Life in Ceylon* by William Knighton Anthony Trollope's *The Vicar of Bullhampton* Anna Leonowens's *The English Governess at the Siamese Court* *Literature and Dogma* by Matthew Arnold and Bram Stoker's *Dracula* *Studies in Comparative Religion*, 1974 Metaphysics cosmology tradition symbolism C.
