Stranger Alone:

A Child Alone with Strangers Philip Fracassi,2022-10-25 Fracassi s novel hits me like a cross between McCammon and 80s King Might be one of them summer blockbusters readers love Laird Barron author of Worse Angels A Child Alone with Strangers starts out as a slow burn procedural with supernatural elements and inexorably cranks itself into a pulse pounding symphony of eldritch horrors and all too human violence Philip Fracassi is the best sort of horror writer one who is unafraid to hunt for light in even the darkest places Shaun Hamill author of A Cosmology of Monsters When young Henry Thorne is kidnapped and held prisoner in a remote farmhouse surrounded by miles of forest he finds himself connecting with a strange force living in the woods using that bond to wreak havoc against his captors Unknown to the boy however is that this ancient being has its own reasons for wanting the interlopers gone there is something hidden beneath the house tucked away in the dark damp root cellar waiting for its return Stranger on a Train Jenny Diski,2003-09 Using two cross country trips on Amtrak as her narrative vehicles British writer Jenny Diski connects the humming rails taking her into the heart of America with the track like scars leading back to her own past As in the highly acclaimed Skating to Antarctica Diski has created a seamless and seemingly effortless amalgam of reflections and revelation in a unique combination of travelogue and memoir

This is a comprehensive guide to a developing field for the early years student and practitioner Who Am I Now That I Am Alone? A Journey Back after Divorce or Death James L Ramsey, 2014-08-13 The Who Am I Now That I Am Alone program began after my divorce I gathered others who had experienced divorce into a group to explore our situation and how we could move forward with our lives This group became one of the first in the country to help people going through divorce remember in the 70 s there still was not a great deal of acceptance of divorce in the culture Hundreds of people have experienced the program that was developed after the first group and have found it very helpful Over the years people have asked to read the book but it was a group process guide and not a narrative This book translates most of the program s material which was designed for group interaction into a format that will allow those who have experienced loss through divorce or death to benefit from the program on their own Chapters 1 3 concern communication including communicating and understanding feelings We can only develop meaningful relationships through effective communication These chapters also work on improving both interpersonal communication skills and your internal self talk communication Chapters 4 6 focus on understanding the importance of personal relationships in our lives guiding readers to move out and expand and deepen supportive relationships These are important skills for enriching the quality of anyone s life Finally Chapters 7 8 are designed to help readers develop a more positive personal identity Many people come out of a divorce or the loss of a relationship feeling like a failure and somewhat worthless These chapters reintroduce readers to their authentic selves Your authentic self has so many good qualities which when recognized and affirmed will offset the feelings of guilt and failure This change in perspective will bring the motivation to leave the past behind and build a new and exciting life CONTENTS Introduction Chapter 1 Some Understandings about Divorce Chapter 2 How to Effectively Communicate Your Feelings Chapter 3 Understanding Interpersonal and Intrapersonal Communications Chapter 4 The Continuing Question Who Am I Now That I Am Alone Chapter 5 Expanding Friendships for Balance in Life Chapter 6 The Need for Community Chapter 7 Getting in Touch with Your Successes Chapter 8 Taking the New You into the World About the Author James Ramsey's career has been divided into three very interesting segments The first part of his career he served as a United Methodist Minister in Southern California where he served three churches The

second part as a corporate trainer working for organizations like Northrop Aircraft Fluor Corporation and the Orange County Transit District and the last segment as a human resources director where he completed his full time work at Family Solutions an organization that worked with at risk children Jim has also taught speech communications at several community colleges Currently he is an independent human resource consultant for a nonprofit and also works part time in a local library He has a Bachelor's degree in Social Science and Master of Divinity degree During the 1970's while going through a divorce he gathered a group of people who were also going through divorce for weekly sessions and these sessions later were refined and became his divorce recovery program Who Am I Now That I Am Alone This program has been delivered to hundreds of people over the years Jim with the assistance of other professionals also conducted training programs to develop more leaders to deliver the program Keywords Divorce Recovery Self Help Divorce Widowed Divorce Program <u>Journey</u>: An isekai adventure trip to renew the world 1 Karen Parker, 2024-12-07 In a realm where the whisper of leaves carries ancient secrets and power flows through the earth's roots a new ruler rises from the shadows of the forest Here in a kingdom forged from the wilderness itself alliances are as fleeting as the morning mist and survival demands more than mere strength With a deep connection to the mystical forces of the forest our hero must tread the dangerous path to sovereignty balance the delicate politics of rival clans and master the raw untamed magic that permeates the land In the midst of battles that reshape the fabric of nature a dynasty is born of resilience and an unwavering will to survive This epic narrative weaves the strands of destiny and power into a story in which every heartbeat is a brushstroke in the great painting of a kingdom s I Walk Alone Wren Handman, 2021-06-29 Wren Handman's exciting sequel to In rise Journal of Education ,1916 Restless Dreams will dazzle fans of Michelle Madow Elise Kova and Cassandra Clare s The Mortal Instruments with sharp wit irresistible romance and an expansive unforgettable world hr As the Phantasmer Sylvia brought order to the Fairy courts Now if only she could reign over the chaos in her own life It s been three months since Sylvia used her powers to rewrite the ruling structure of Fairy dismantling the Seelie and Unseelie courts Recovered from her injuries she s back at school and struggling to balance her real life against the much more immediate and exciting world that magic has to offer Not to mention the distraction of her utterly hot and completely fish out of water boyfriend But in Fairy there are rumblings that an ancient prophecy is on the cusp of fruition Beware the coming of the one who should not have been for he shall bring with him the end of days Take back the mantle or all will be lost Will Sylvia be able to uncover the truth behind the prophecy learn how to use her ever growing powers without risking her relationship and convince her best friend Fiona that it s not weird that her boyfriend is a thousand years old It won t be easy **Ringstead Abbey; Or The Stranger's Grave; with Other Tales** Jane Alice Sargant, 1830 What Determines Social Behavior? Investigating the Role of Emotions, Self-Centered Motives, and Social Norms Corrado Corradi-Dell'Acqua, Leonie Koban, Susanne Leiberg, Patrik Vuilleumier, Ernst Fehr, 2016-09-28 Human behavior and decision making is subject to social and motivational influences such as emotions

norms and self other regarding preferences The identification of the neural and psychological mechanisms underlying these factors is a central issue in psychology behavioral economics and social neuroscience with important clinical social and even political implications However despite a continuously growing interest from the scientific community the processes underlying these factors as well as their ontogenetic and phylogenetic development have so far remained elusive In this Research Topic we collect articles that provide challenging insights and stimulate a fruitful controversy on the guestion of what determines social behavior Indeed over the last decades research has shown that introducing a social context to otherwise abstract tasks has diverse effects on social behavior On the one hand it may induce individuals to act irrationally for instance to refuse money but on the other hand it improves individuals reasoning in that formerly difficult abstract problems can be easily solved These lines of research led to distinct although not necessarily mutually exclusive models for socially driven behavioral changes For instance a popular theoretical framework interprets human behavior as a result of a conflict between cognition and emotion with the cognitive system promoting self interested choices and the emotional system triggered by the social context operating against them Other theories favor social norms and deontic heuristics in biasing human reasoning and encouraging choices that are sometimes in conflict with one s interest Few studies attempted to disentangle between these as well as other models As a consequence although insightful results arise from specific domains tasks a comprehensive theoretical framework is still missing Furthermore studies employing neuroimaging techniques have begun to shed some light on the neural substrates involved in social behavior implicating consistently although not exclusively portions of the limbic system the insular and the prefrontal cortex In this context a challenge for present research lies not only in further mapping the brain structures implicated in social behavior or in describing in detail the functional interaction between these structures but in showing how the implicated networks relate to different theoretical models This is Research Topic hosted by members of the Swiss National Center of Competence in Research Affective Sciences Emotions in Individual Behaviour and Social Processes We collected contributions from the international community which extended the current knowledge about the psychological and neural structures underlying social behavior and decision making In particular we encouraged submissions from investigators arising from different domains psychology behavioral economics affective sciences etc implementing different techniques behavior electrophysiology neuroimaging brain stimulations on different populations neurotypical adults children brain damaged or psychiatric patients etc Animal studies are also included as the data reported are of high comparative value Finally we also welcomed submissions of meta analytical articles mini reviews and perspective papers which offer provocative and insightful interpretations of the recent literature in the field
