**Strangers in This World** Hussam S. Timani, Allen G. Jorgenson, Alexander Y. Hwang, 2015 Immigration is one of the most hotly debated topics today But the question involves more than politics and emotion it includes such critical issues as law justice human rights human dignity and freedom Strangers in This World is a collection that brings together an international consortium of scholars to reflect on the religious political anthropological and social realities of immigration through the prism of the historical and theological resources insights and practices across an array of religious traditions The

volume reflecting the diversity of religious cultures is nevertheless unified in arguing that immigration is an important aspect of the major religions and is found at their core The contributors unfold this important dimension of the religious traditions and explore the ways that the theme of immigration connects to vital points of theological reflection and practice in Hinduism Buddhism Judaism Christianity Islam and Native American religious traditions At root the volume is about our collective journey together as immigrant peoples who have stories and settlements to share as well as challenges and struggles to overcome that may be faced through the resources our many faiths offer

*Politics and the Religious Imagination* John H.A. Dyck, Paul S. Rowe, Jens Zimmermann, 2010-06-10 Politics and the Religious Imagination is the product of a group of interdisciplinary scholars each analyzing the connections between religious narratives and the construction of regional and global politics combining a set of theoretical and philosophic insights with several case studies that represent varied geographies and religious customs The past decade has seen increasing interest in the links between religion and politics and this edited volume seeks to take religion seriously as a motivator of action Few studies have attempted to bring together the multi disciplinary work in this burgeoning field of study and this work takes a global perspective using a variety of contexts including East West relations to analyze the following key themes the constructive and destructive hermeneutics of religious stories the relevance and importance of religion as a dominant political narrative the rise of new stories among groups as agents of change the way that religious narratives help to define and constrain the Other the manipulation of religious stories for political benefit This work argues that it is insufficient to judge the relationship of religion and politics through mere institutional or quantitative lenses and this collection proves that while this promise of the narrative part of the social imaginary has been recognized in political theory to a certain extent its influence in the realm of empirical political science has yet to be fully considered Combining the work of a wide range of experts this collection will be of great interests to scholars of politics philosophy religious studies and the literary influence of religion

**Paths in Heidegger's Later Thought** Günter Figal, Diego D'Angelo, Tobias Keiling, Guang Yang, 2020-03-10 If one takes Heidegger at his word then his philosophy is about pursuing different paths of thought rather than defining a single set of truths This volume gathers the work of an international group of scholars to present a range of ways in which Heidegger can be read and a diversity of styles in which his thought can be continued Despite their many approaches to Heidegger their hermeneutic orientation brings these scholars together The essays span themes from the ontic to the ontological from the specific to the speculative While the volume does not aim to present a comprehensive interpretation of Heidegger's later thought it covers much of the terrain of his later thinking and presents new directions for how Heidegger should and should not be read today Scholars of Heidegger's later thought will find rich and original readings that expand considerations of Heidegger's entire oeuvre
