**The Geologist** ,1861      **The American Geologist** Newton Horace Winchell,1897 Includes section Review of recent geological literature      Cerebellar Functions J. Bloedel,J. Dichgans,W. Precht,2012-12-06 Over the past few semesters a group of neurologists neurophysiologists and brain theorists in various departments of Tübingen University have gathered periodically in an effort to review ideas and evidence on cerebellar functions At times general solutions seemed close when credit was given to various theoretical proposals advanced since the early days of cerebellar physiology however it became clear in every case that a large part of the available facts refused to submit to the general ideas As believers in the power of scientific discussion we felt that the time was ripe for posing the problem of the cerebellum once more to a well articulated group of specialists that would include proponents of every disparate point of view The sponsorship of the Max Planck Society and of the Deutsche Forschungsgemeinschaft to whom we express our profound gratitude made it possible to organize an international meeting in September 1983 The aim of making new even extravagant ideas palatable to each other was well accomplished by the participants We trust that some of the ensuing excitement has been carried over into the printed version      **Text-book of Geology** Archibald Geikie,1901      The American Geologist ,1897      **International Catalogue of Scientific Literature, 1901-1914** ,1912      ,      **Mémoires - Institut royal des sciences naturelles de Belgique** Institut royal des sciences naturelles de Belgique,1911      **International Catalogue of Scientific Literature** ,1912      **Siluria** Sir Roderick Impey Murchison,1859      **Mémoires de la Société des antiquaires de Picardie** ,1856
