Law Rosemarie Tong, 1984 Feminist scholars have long been concerned with how women and sexuality are perceived and treated by the American legal system Feminists have put forth a variety of arguments seeking the causes and solutions to the class based and sex biased characteristics of the legal system that contribute to the victimization of women in contemporary society No consensus within the women's movement has been achieved on a number of legal issues such as pornography or prostitution since approaches are often divided by political economic moral or sexual ideology *Women Sex and the Law* is a comprehensive survey and analysis of the legal and sexual issues important to women Rosemarie Tong introduces the reader

to the different feminist and legal perspectives on the causes and solutions for the problems of pornography sexual harassment prostitution rape and woman battering Tong clearly and concisely details and assesses the legal theory and practice for each issue describes and critiques the various feminist debates surrounding these concerns and offers her own thoughtful proposals for ameliorating the discriminatory tendencies and improving the effectiveness of our present legal system

U.S. Women's History Leslie Brown, Jacqueline Castledine, Anne Valk, 2017-01-25 In the 1970s feminist slogans proclaimed Sisterhood is powerful and women's historians searched through the historical archives to recover stories of solidarity and sisterhood However as feminist scholars have started taking a more intersectional approach acknowledging that no woman is simply defined by her gender and that affiliations like race class and sexual identity are often equally powerful women's historians have begun to offer more varied and nuanced narratives The ten original essays in *U S Women's History* represent a cross section of current research in the field Including work from both emerging and established scholars this collection employs innovative approaches to study both the causes that have united American women and the conflicts that have divided them Some essays uncover little known aspects of women's history while others offer a fresh take on familiar events and figures from Rosa Parks to Take Back the Night marches Spanning the antebellum era to the present day these essays vividly convey the long histories and ongoing relevance of topics ranging from women's immigration to incarceration from acts of cross dressing to the activism of feminist mothers This volume thus not only untangles the threads of the sisterhood mythos it weaves them into a multi textured and multi hued tapestry that reflects the breadth and diversity of U S women's history

Marching Dykes, Liberated Sluts, and Concerned Mothers Elizabeth Currans, 2017-10-15 From the Women in Black vigils and Dyke marches to the Million Mom March women have seized a dynamic role in early twenty first century protest The varied demonstrations whether about gender sexuality war or other issues share significant characteristics as space claiming performances in and of themselves beyond their place in any broader movement Elizabeth Currans blends feminist queer and critical race theory with performance studies political theory and geography to explore the outcomes and cultural relevance of public protest Drawing on observation interviews and archival and published sources Currans shows why and how women utilize public protest as a method of participating in contemporary political and cultural dialogues She also examines how groups treat public space as an important resource and explains the tactics different women protesters use to claim transform and hold it The result is a passionate and pertinent argument that women organized demonstrations can offer scholars a path to study the relationship of gender and public space in today's political culture
