Hahn, David Scott, 2008 This is the fourth annual volume of the remarkably popular journal of biblical theology edited by Scott Hahn and his St Paul Center for Biblical Theology This volume features important new works by Hahn Gary Anderson John Cavadini Brant Pitre among others Inspired by the ground breaking work of Yves Congar and Jean Danielou this volume includes original and thought provoking contributions on such topics as the Tabernacle and the origins of Christian mysticism Jesus self consciousness of being the new Temple and the new High Priest and the doctrine of the indwelling of the Trinity in the soul Hahn contributes a new perspective on the Gospel of John showing how Israel's Temple and feasts are fulfilled in Christ and the sacraments of the Church As the editors write in their introduction to this volume The Temple theme is perhaps the richest in all of biblical theology embracing the mysteries of Christ Church and Kingdom liturgy sacraments and priesthood salvation sanctification and divine filiation These are the beautiful mysteries we contemplate in this volume of Letter Spirit

King's College Chapel, Aberdeen, 1500-2000 Jane Geddes, 2020-10-28 This new edition is a revised and expanded version of the book produced in 2000 to celebrate the quincentenary of King's College Chapel Aberdeen Since then exciting discoveries have taken place and old ideas have been reappraised The choir stalls and woodwork have provided a fresh seam of information about the meaning and use of the medieval chapel Daniel MacCannell has identified new iconography in the stalls Jane Geddes prompted by the installation of the new organ has investigated the original function and appearance of the great pulpitum or screen between the choir and nave and discovered the location of a magnificent lost organ loft Mary Pryor and John Morrison have examined the great baroque biblical paintings and come up with a totally new interpretation of their iconography and function a political warning to King Charles II Easter Smart the university chaplain describes the flexible and ecumenical use of the chapel today The revised edition appears in time to honour the quincentenary of the death of Bishop William Elphinstone the founder of Aberdeen University who died in 1514 This book aims to integrate his legacy to the chapel the liturgy music architecture and fittings Thanks to an unusually tolerant and conservative attitude towards religion at the university following the Reformation the chapel has survived in a more complete medieval state than any other church in Scotland The rich archive of university documents show how benign neglect and a fierce pride in their iconic building caused the university to maintain the structure and its furnishings even during the long centuries when it ceased to serve a religious function

From Temples to Garden Estates and Academies Pania Yanjie Mu, 2025-01-30 How did the temple scape of Suzhou transform into garden scape during the 13th to 16th centuries This book investigates the landscape evolution of China during the Yuan Ming socio

political transformation and provides a previously unrepresented Buddhist and hydraulic history of Chinese gardens Utilising historical GIS mapping and 3D architectural modelling the research uncovers spatial strategies employed by monks the gentry and the government It argues that by seizing hydraulic estates from Buddhists the gentry and government rose as a landed class and cultural elites establishing the literati garden Yuan temples featured a mound field river topography which reclaimed urban wetlands In temples such as Shizi Lin scenes were crafted as Chan gong ans to support Buddhist practice towards enlightenment underpinning a monastic architectural transformation in the 14th century In the Ming dynasty the gentry and government exploited the hydro topography while erasing Buddhist traces by converting temples into gardens The book forms a theoretical model of triangulating the garden practice with socio hydro spaces and advocates a new garden history enabled by historical mapping and modelling This book is aimed at students and scholars of East Asian history temples and gardens and landscape architecture and design

Restoring the Soul of the World David Fideler, 2014-11-20

Humanity s creative role within the living pattern of nature Explores important scientific discoveries that reveal the self organizing intelligence at the heart of nature Examines the idea of a living cosmos from its roots in the earliest cultures to its eclipse during the Scientific Revolution to its return today Reveals ways to reengage our creative partnership with nature and collaborate with nature s intelligence For millennia the world was seen as a creative interconnected web of life constantly growing developing and restoring itself But with the arrival of the Scientific Revolution in the 16th and 17th centuries the world was viewed as a lifeless clock like mechanism bound by the laws of classical physics Intelligence was a trait ascribed solely to human beings and thus humanity was viewed as superior to and separate from nature Today new scientific discoveries are reviving the ancient philosophy of a living interconnected cosmos and humanity is learning from and collaborating with nature s intelligence in new life enhancing ways from ecological design to biomimicry Drawing upon the most important scientific discoveries of recent times David Fideler explores the self organizing intelligence at the heart of nature and humanity s place in the cosmic pattern He examines the ancient vision of the living cosmos from its roots in the world soul of the Greeks and the alchemical tradition to its eclipse during the Scientific Revolution to its return today He explains how the mechanistic worldview led to humanity s profound sense of alienation for if the universe only functioned as a machine there was no longer any room for genuine creativity or spontaneity He shows how this isn t the case and how even at the molecular level natural systems engage in self organization self preservation and creative problem solving mirroring the ancient idea of a creative intelligence that exists deep within the heart of nature Revealing new connections between science religion and culture Fideler explores how to reengage our creative partnership with nature and new ways to collaborate with nature s intelligence

Unveiling Sophia Anne Elizabeth Taylor, 2021-05-01

Eternal feminine wisdom synchronizes the human heartbeat with the heartbeat of the universe The Dalai Lama famously proclaimed that Western Women can save the world But many modern women and men are painfully dissociated from Sophia their inner spring of

feminine wisdom and the primal source of their power and nurturance Western women from around the globe have deep archetypal roots that have lain dormant after millennia of patriarchal control Sophia awaits collective rebirth and her portal for rebirth is through the heart Sophia who the ancient Greeks regarded as the goddess of wisdom represents a threshold through which we can access the deep reserves of archetypal wisdom veiled within our hearts The eternal feminine hithers us on Johann Wolfgang von Goethe Faust II To reveal this wisdom we must open ourselves to methods beyond logos the masculine principle of logic and structure that underlies the scientific approaches characteristic of our enlightened age Paradoxically as we begin to lift Sophia s veil we encounter scientific profundity proving that masculine and feminine are not fundamentally at odds Sophia does not replace logos but instead offers a balancing perspective a wisdom beyond sense perceptions Through Sophia the wisdom of the heart accelerates the evolution of humanity from one sided logos to incorporate new forms of awareness and through our collective evolution we also heal the soul of the world anima mundi

Villa, 2023-12-18 In his 1979 essay The Postmodern Condition A Report on Knowledge philosopher Jean Fran ois Lyotard noted that the advent of the computer opened up a stage of progress in which knowledge has become a commodity Modernity and postmodernity appear as two stages of a process resulting from the conflict of science and narrative As science attempts to distance itself from narrative it must create its own legitimacy This paper takes up this challenge with a focus on the question of imagery The image is precisely what modern science seeks to free itself from in its quest for absolute transparency This transparency is examined from the perspective of architecture drawing on arguments from philosophy quantum mechanics theology and information theory Natural science in the context of postmodernism Quantum mechanics and information theory New volume in the Applied Virtuality Book Series
